Architecture globale de SkillSwap

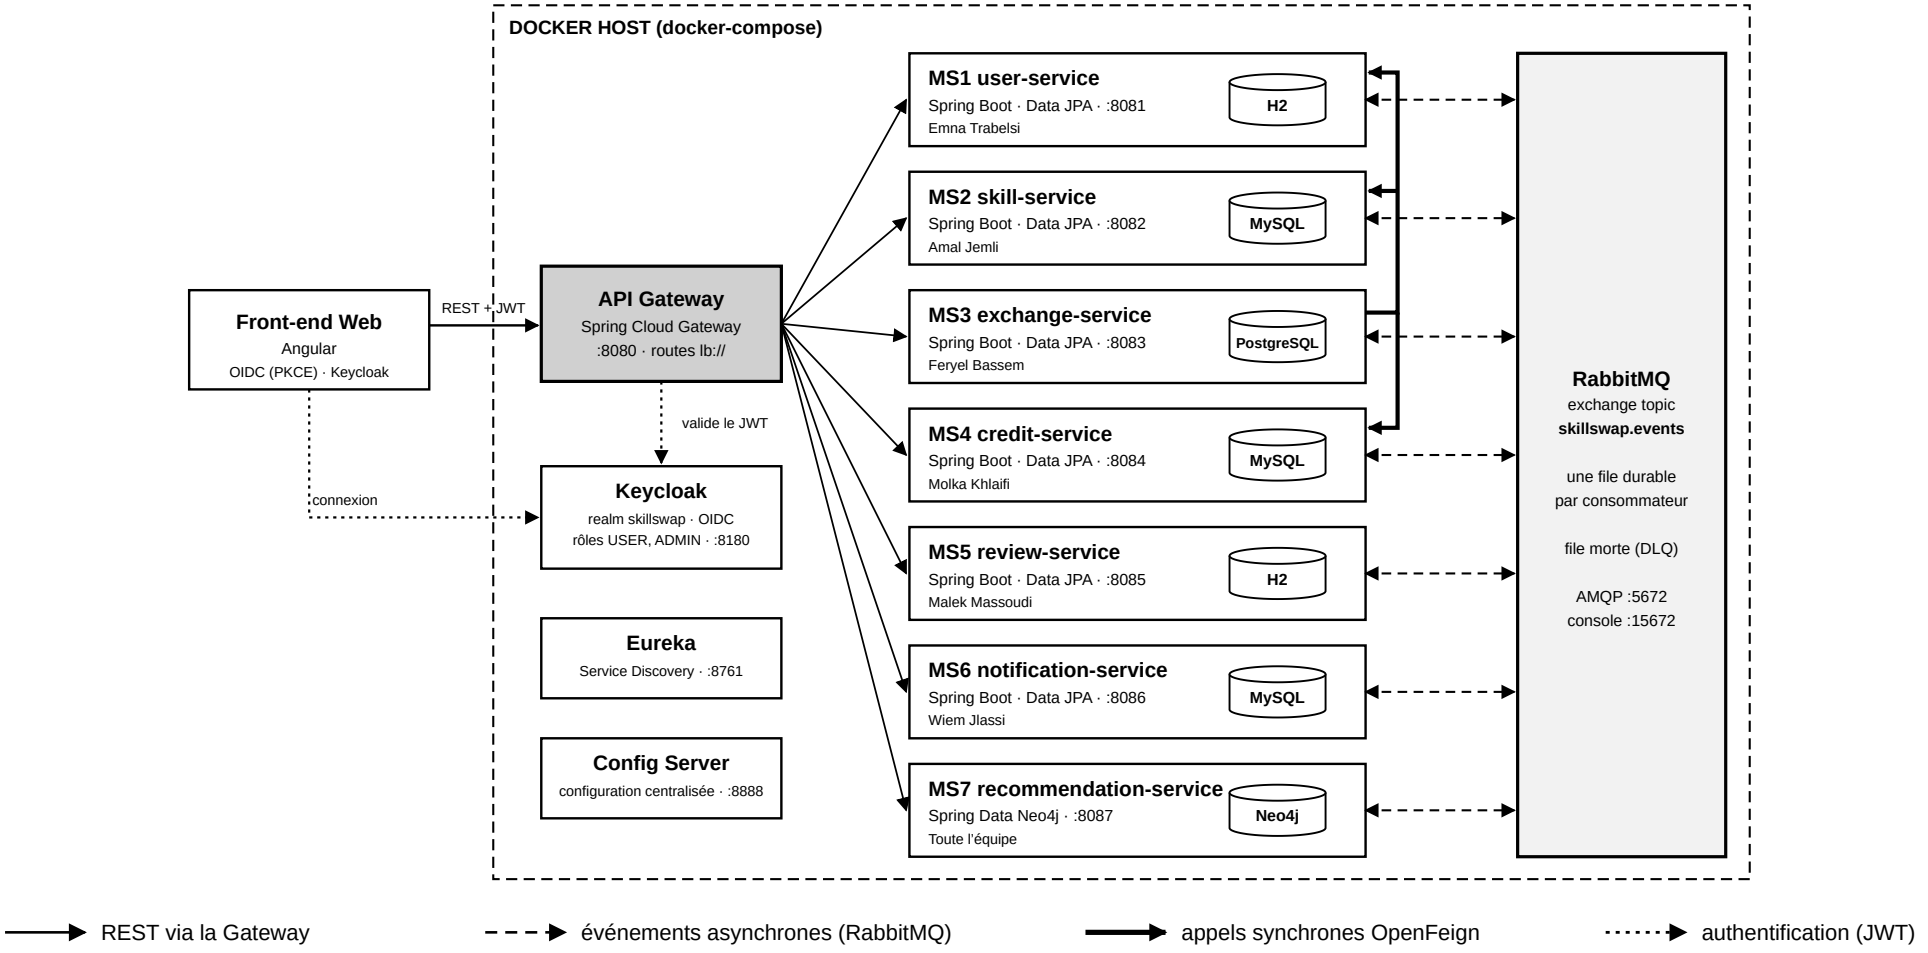

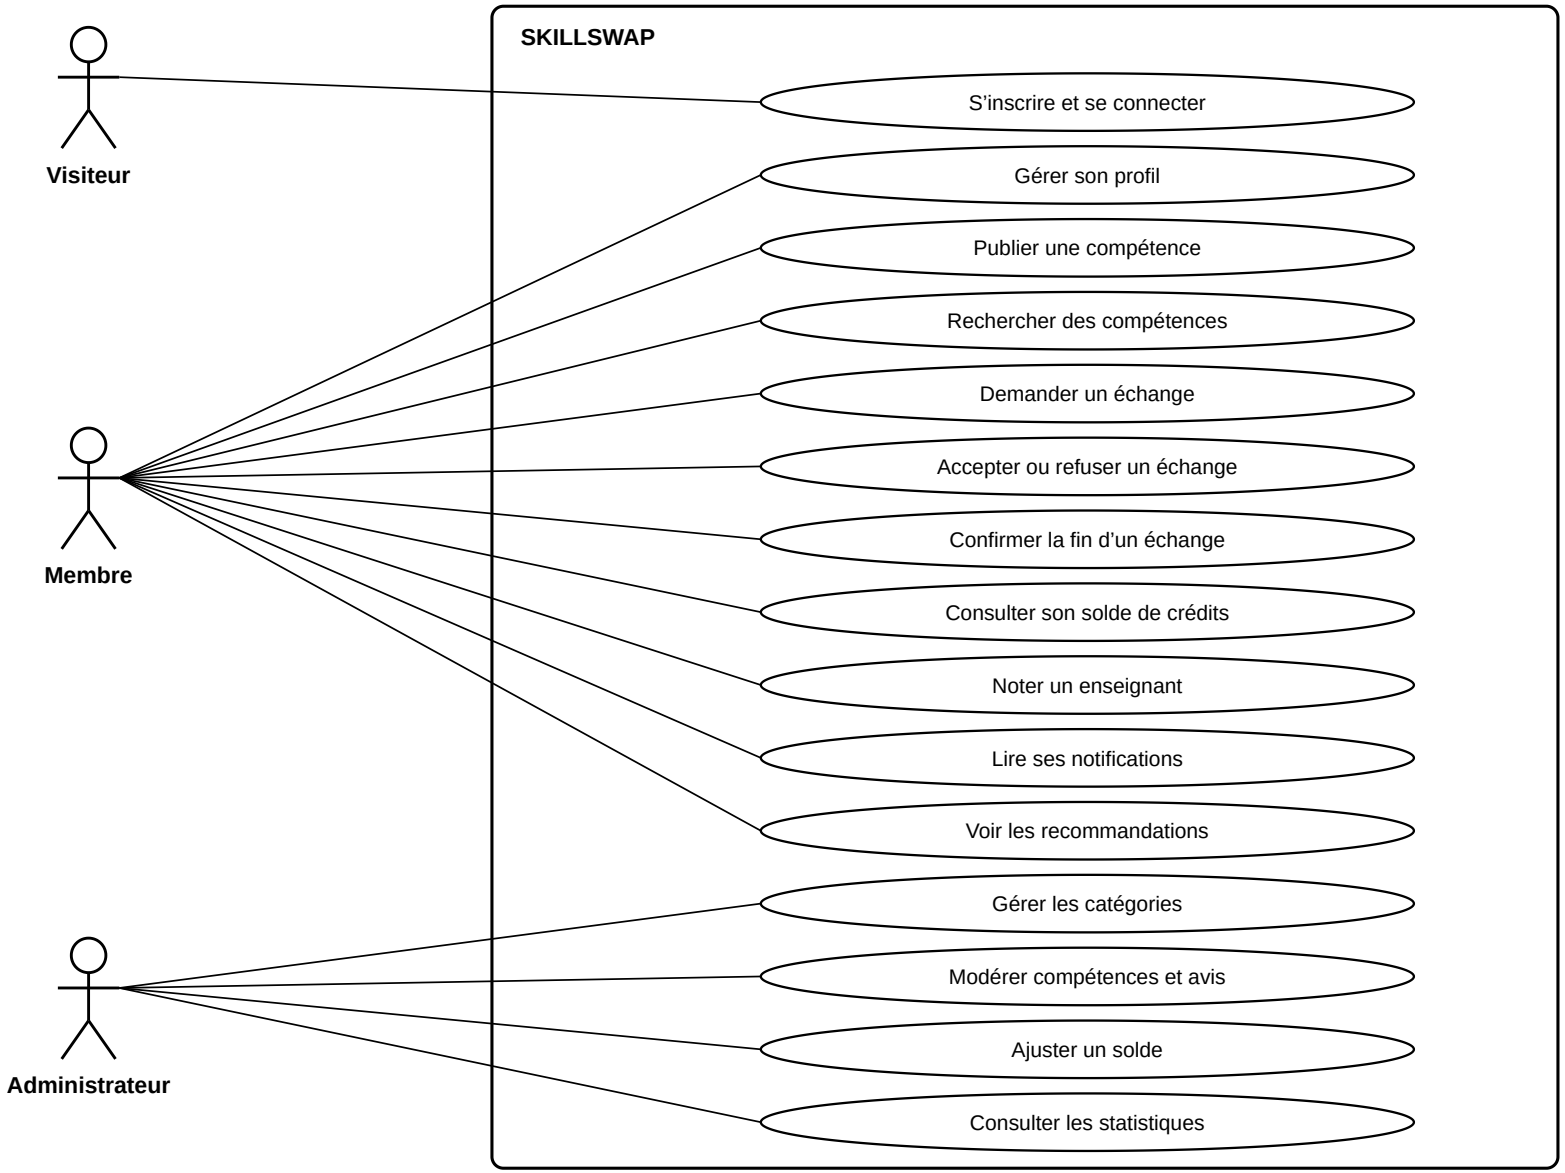

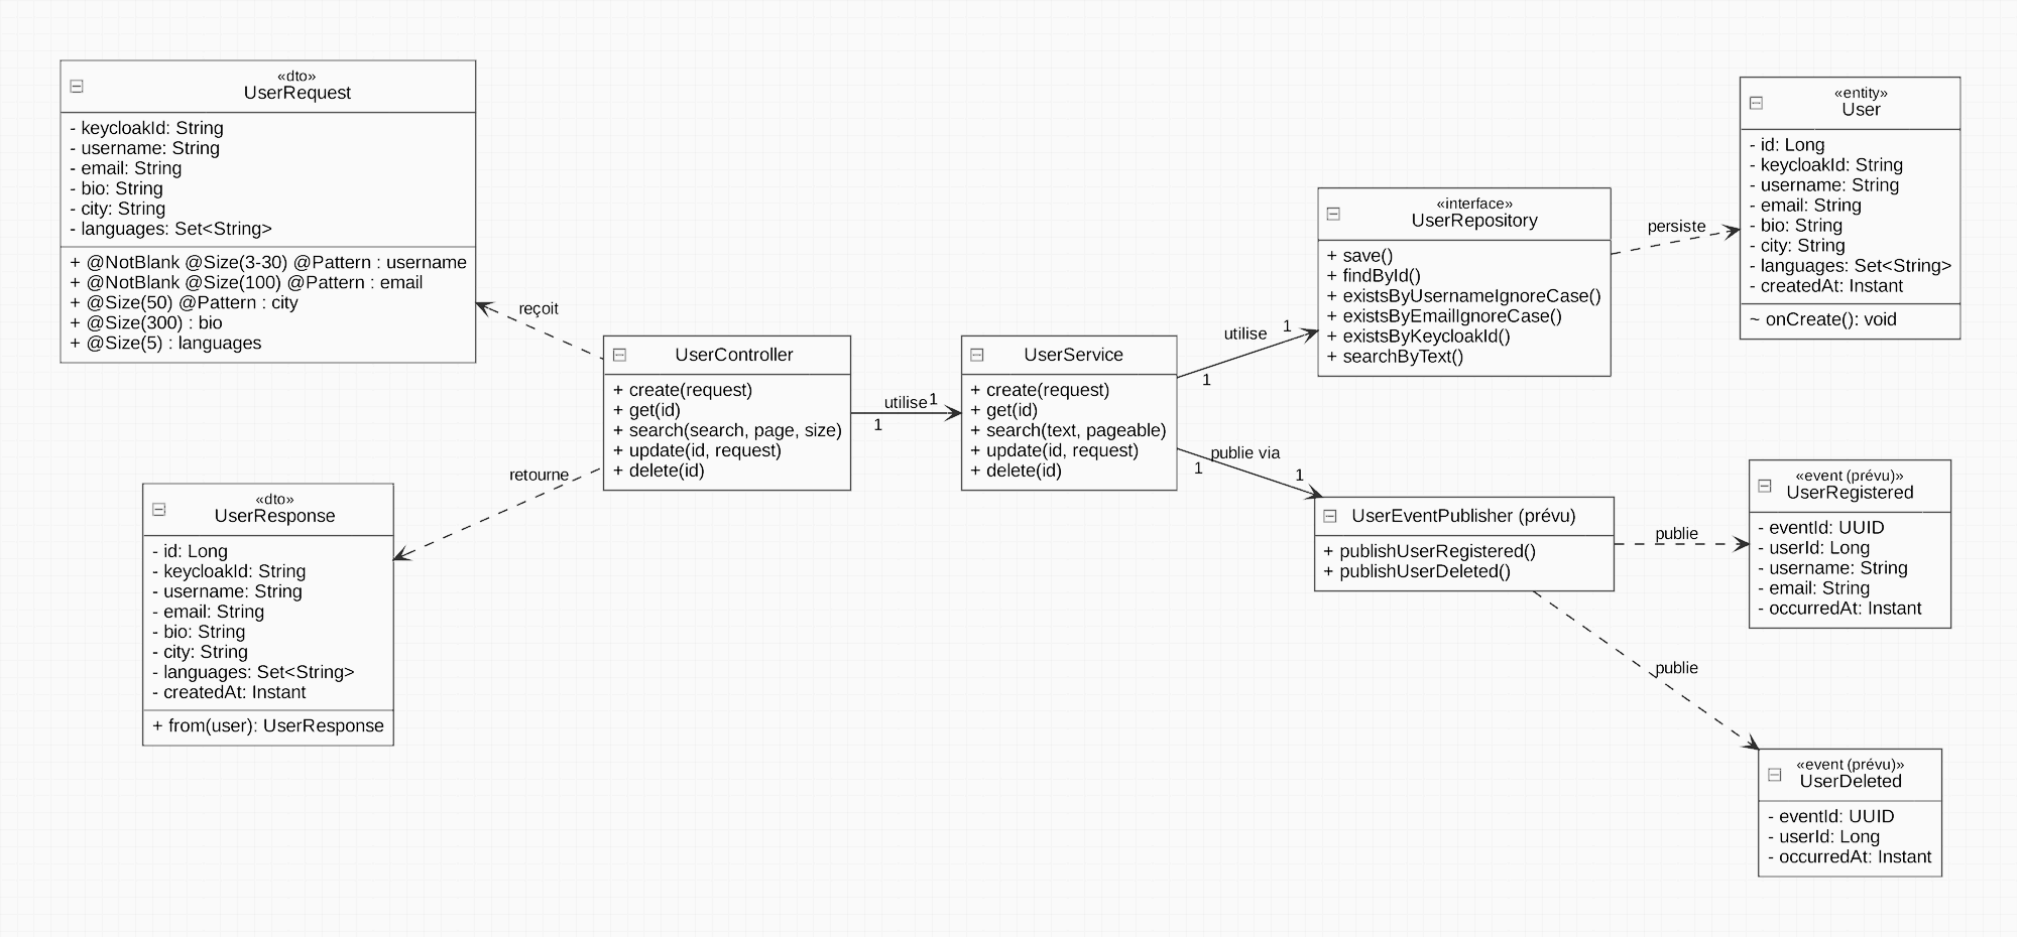

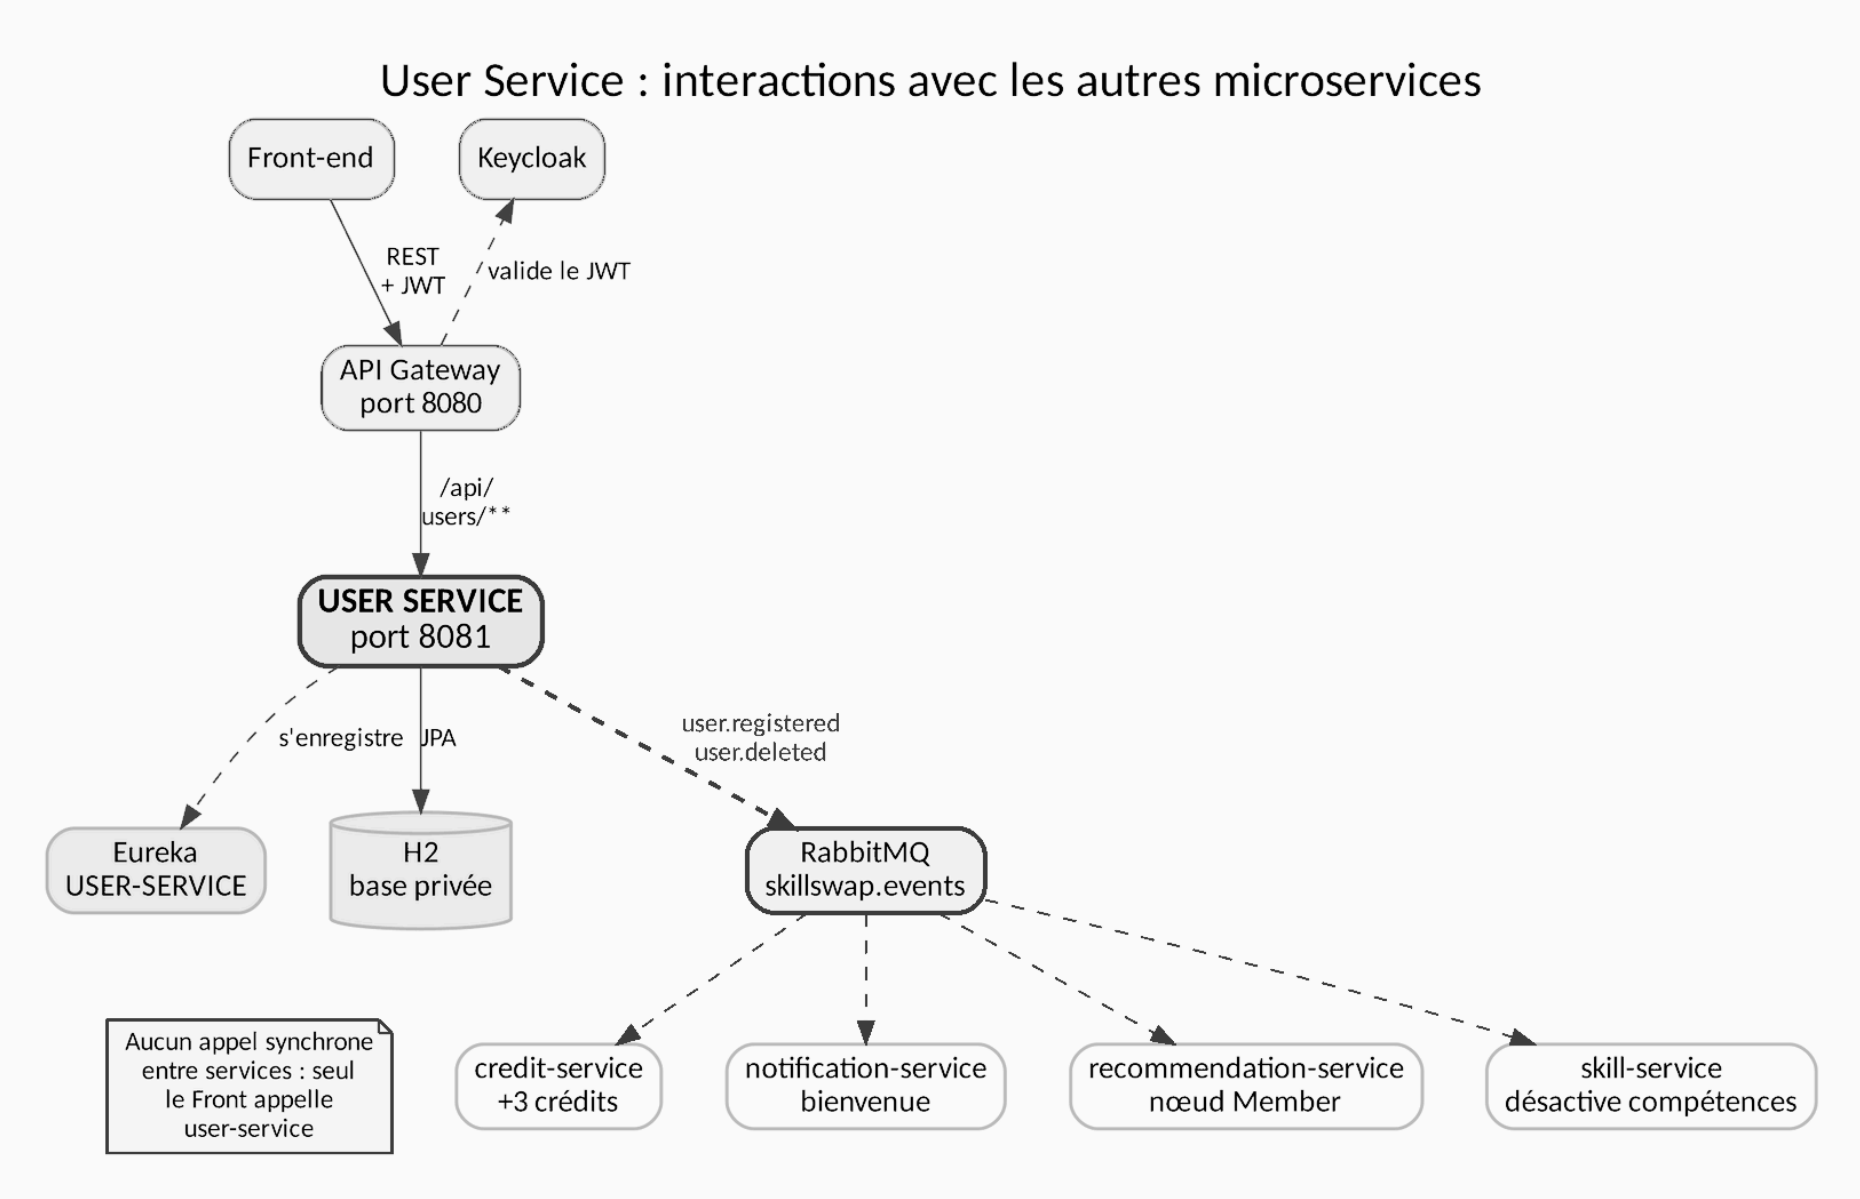

Diagramme de cas d’utilisation général

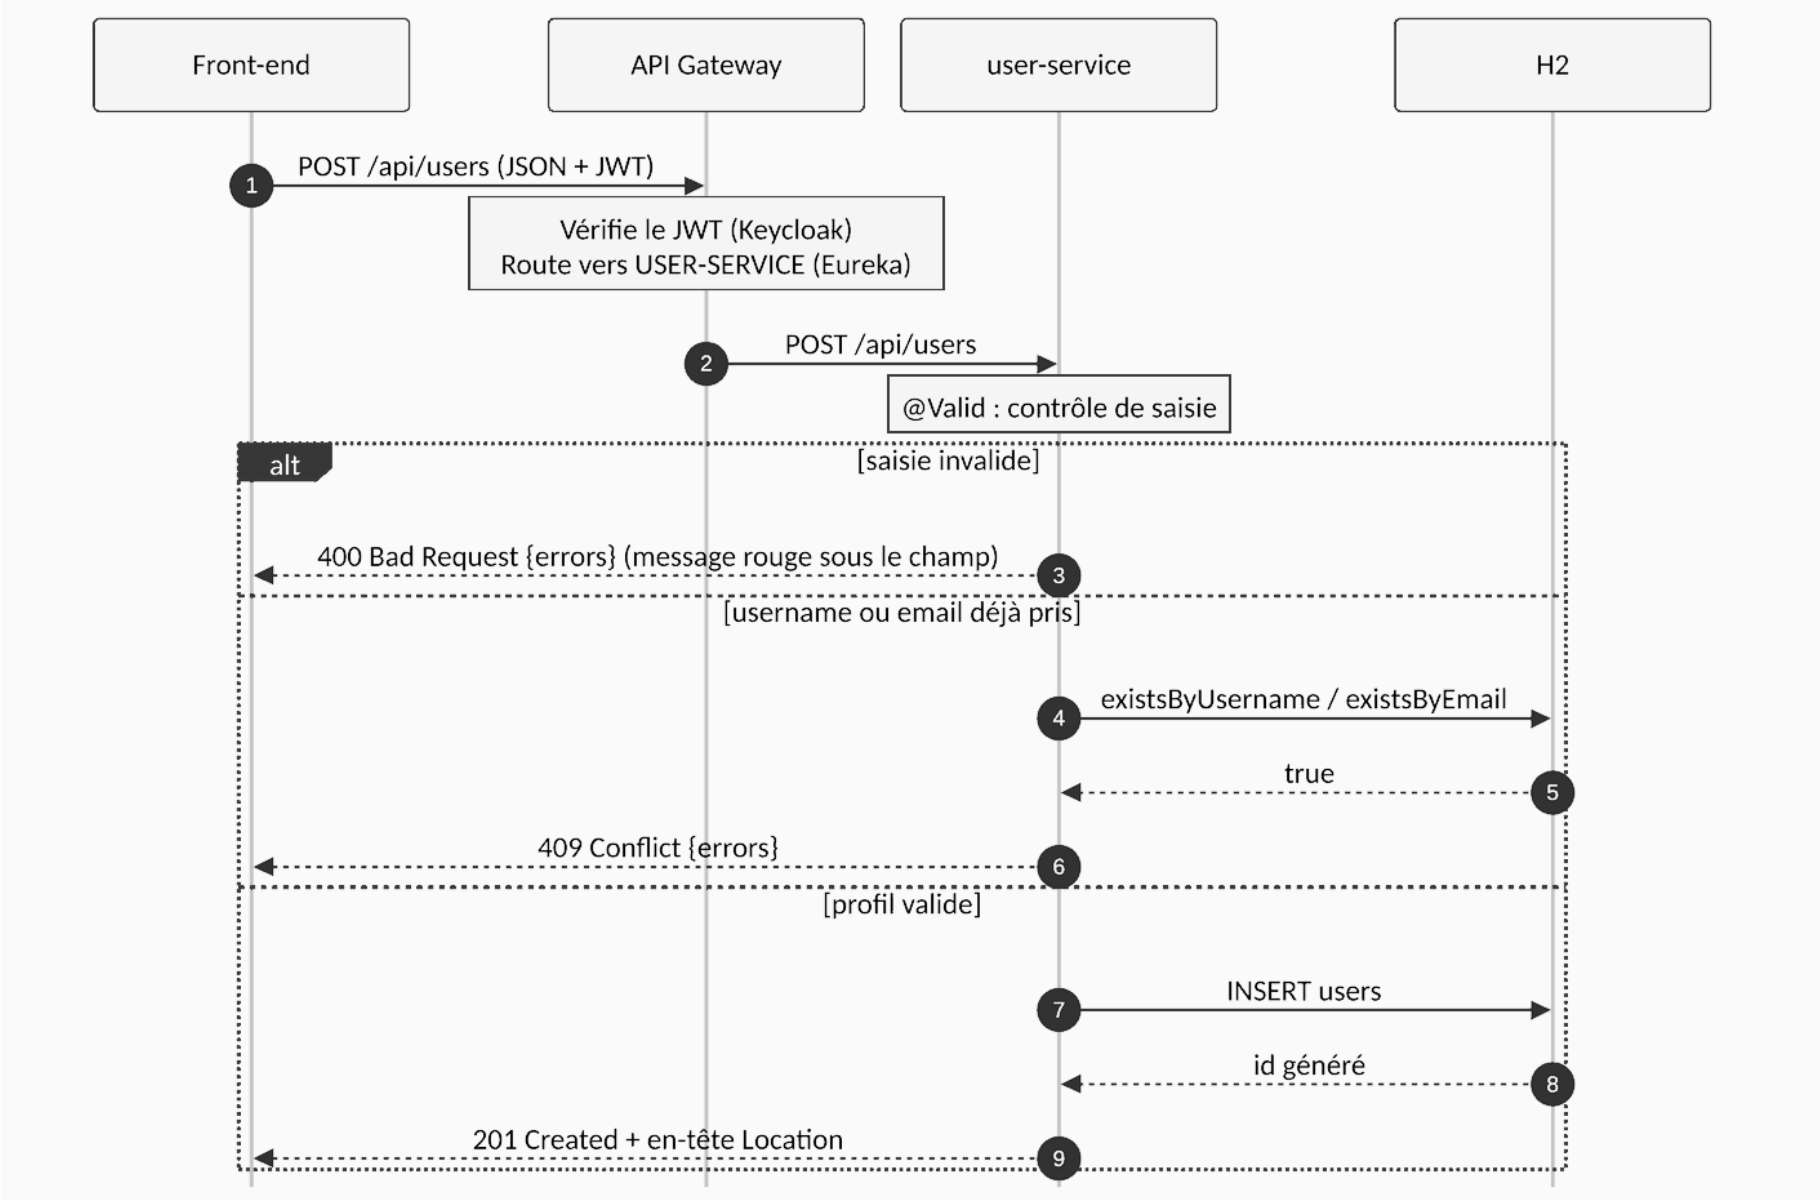

MS1 · user-service – Diagramme de classes

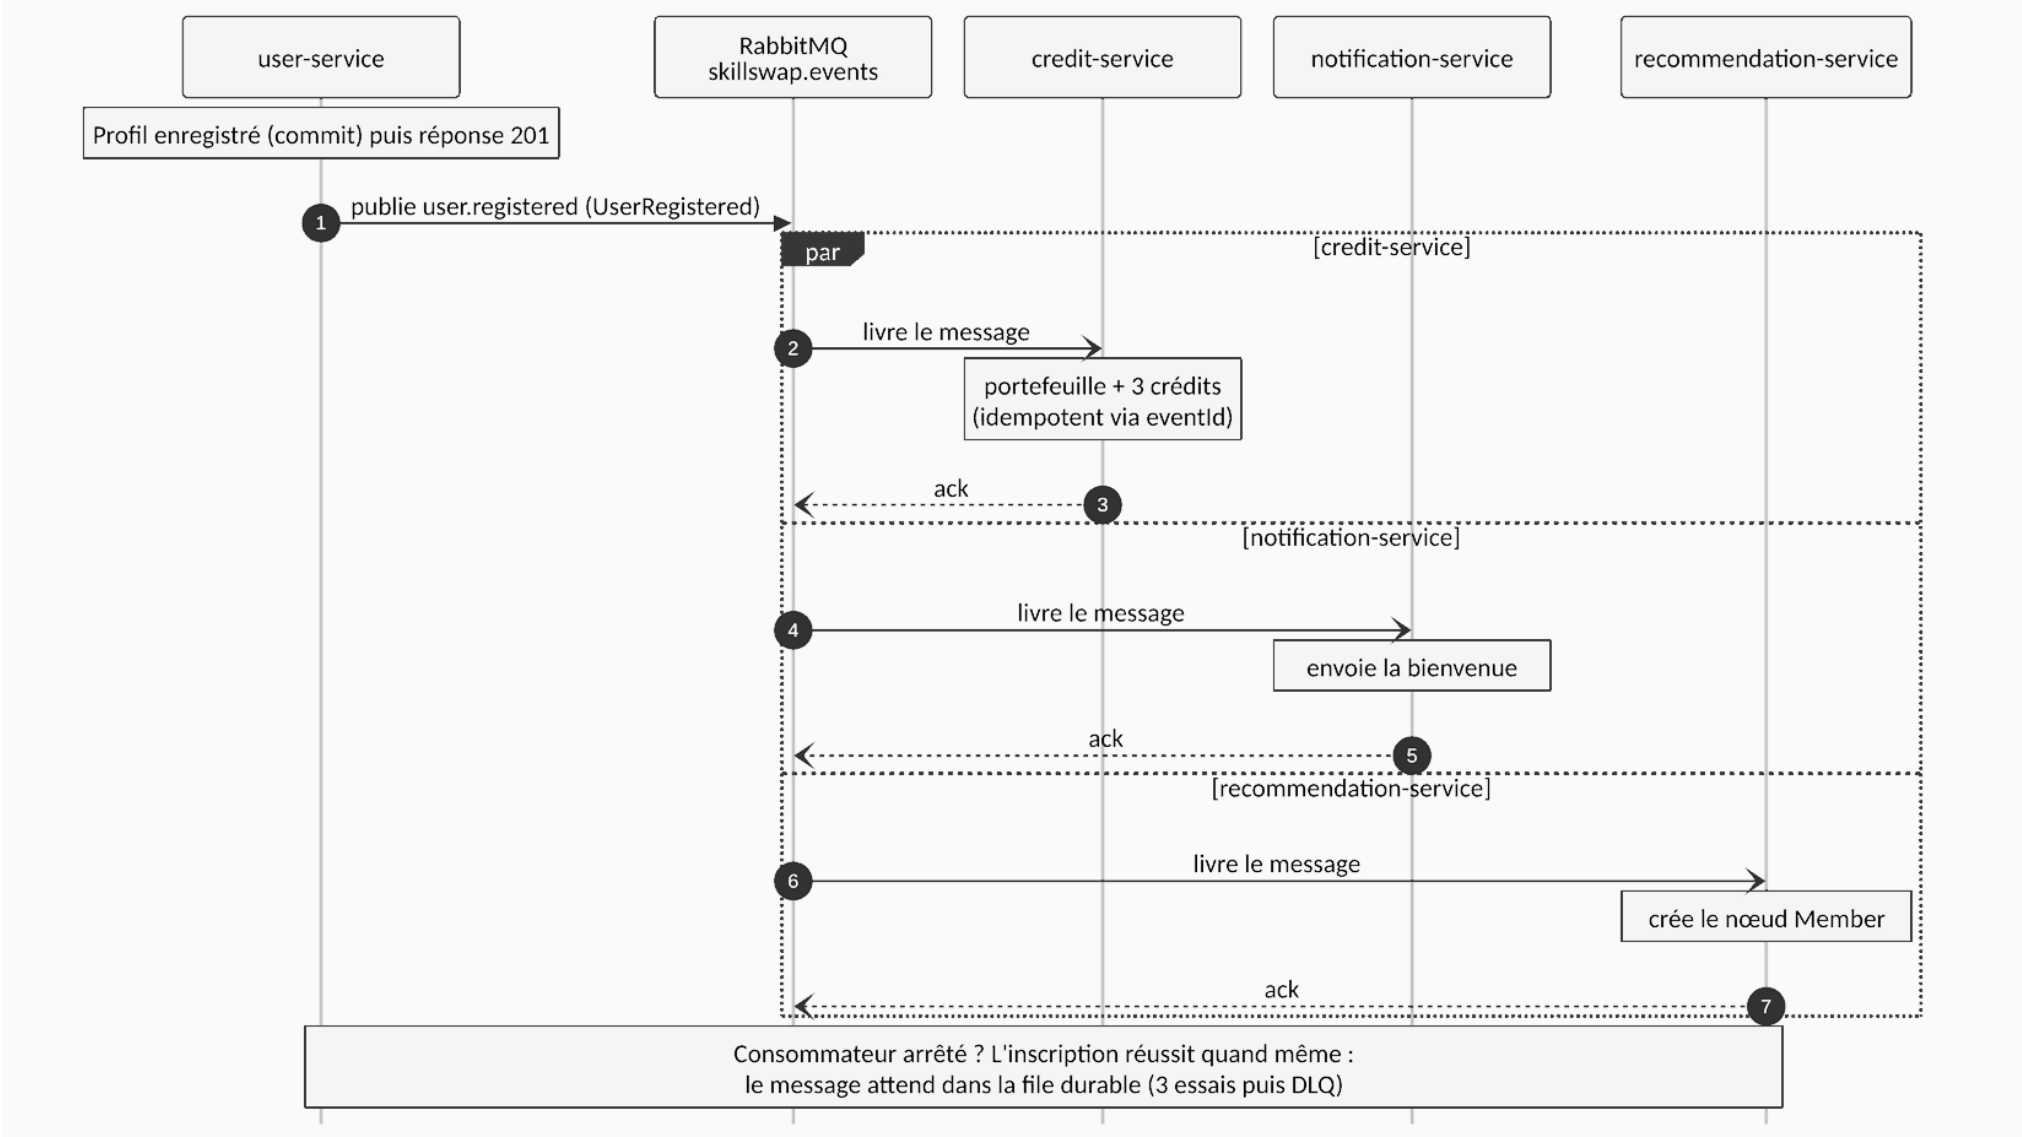

MS1 · user-service – Interactions avec les autres microservices

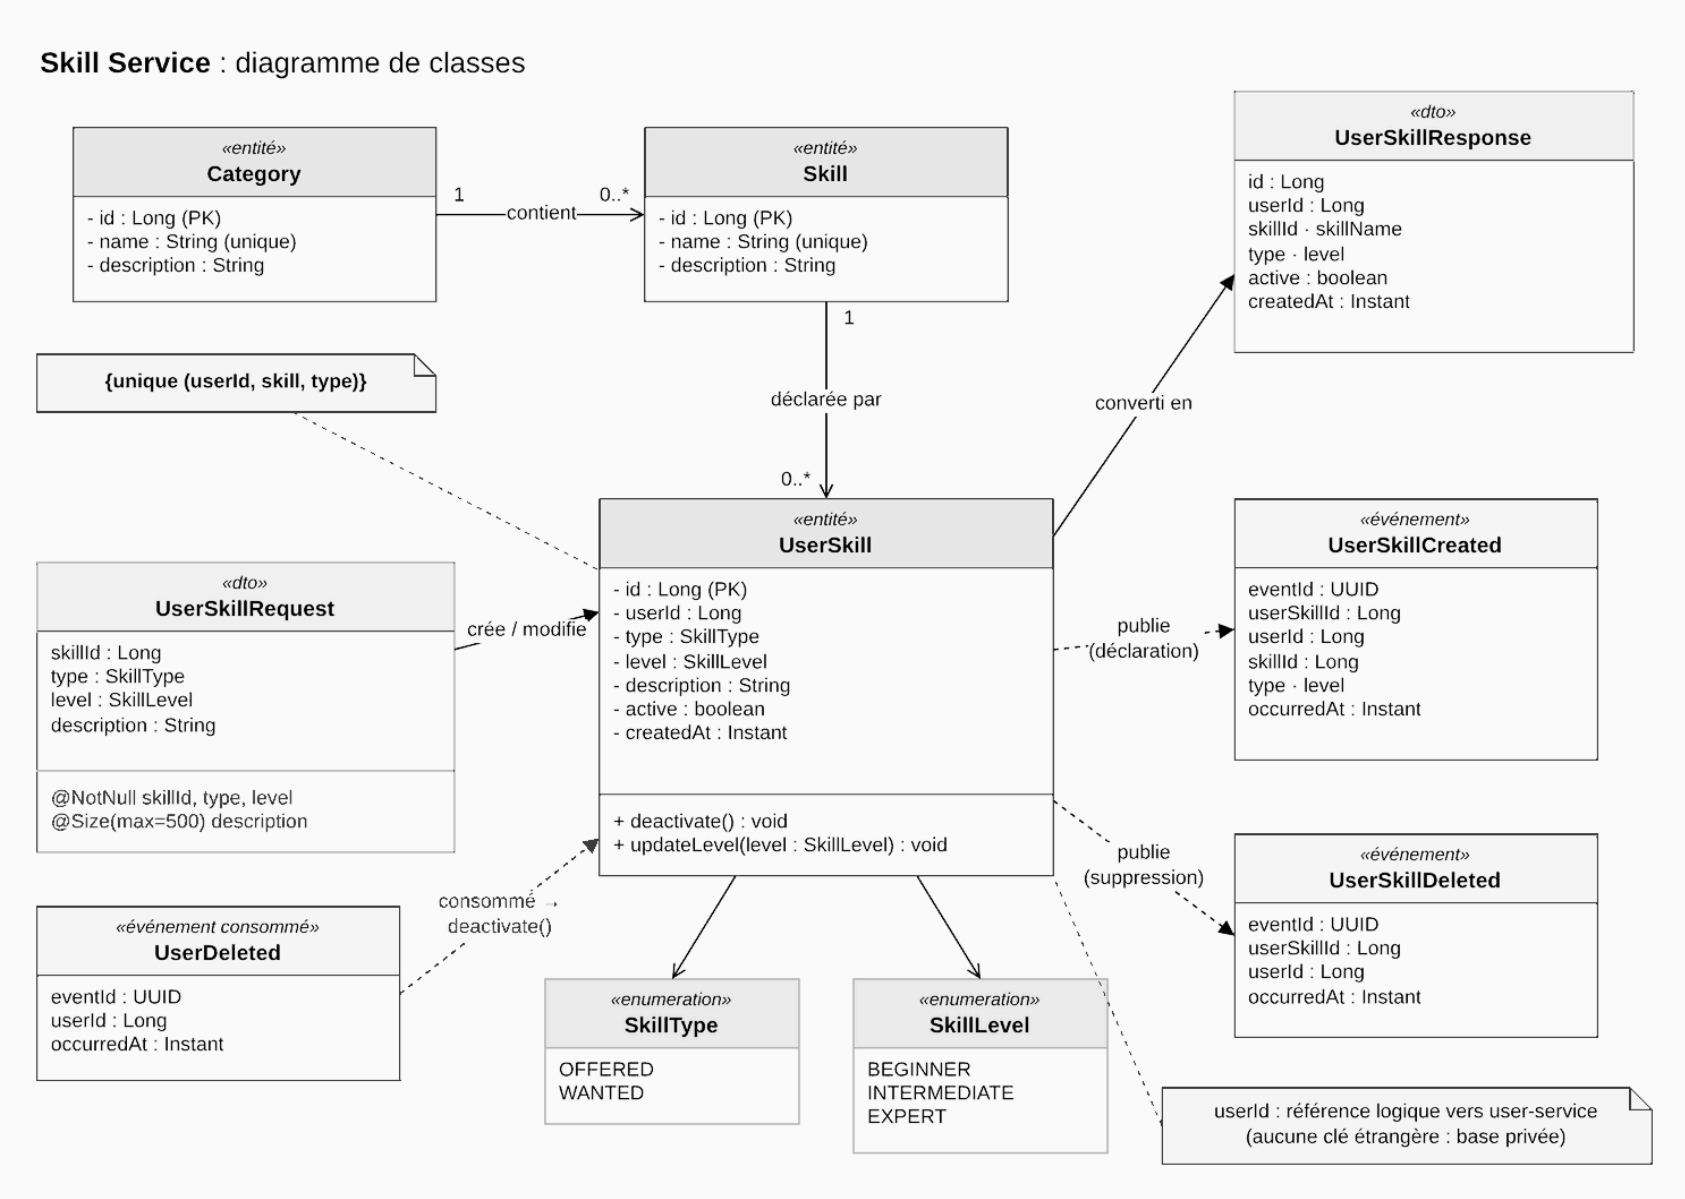

MS1 · user-service – Exemple de communication synchrone

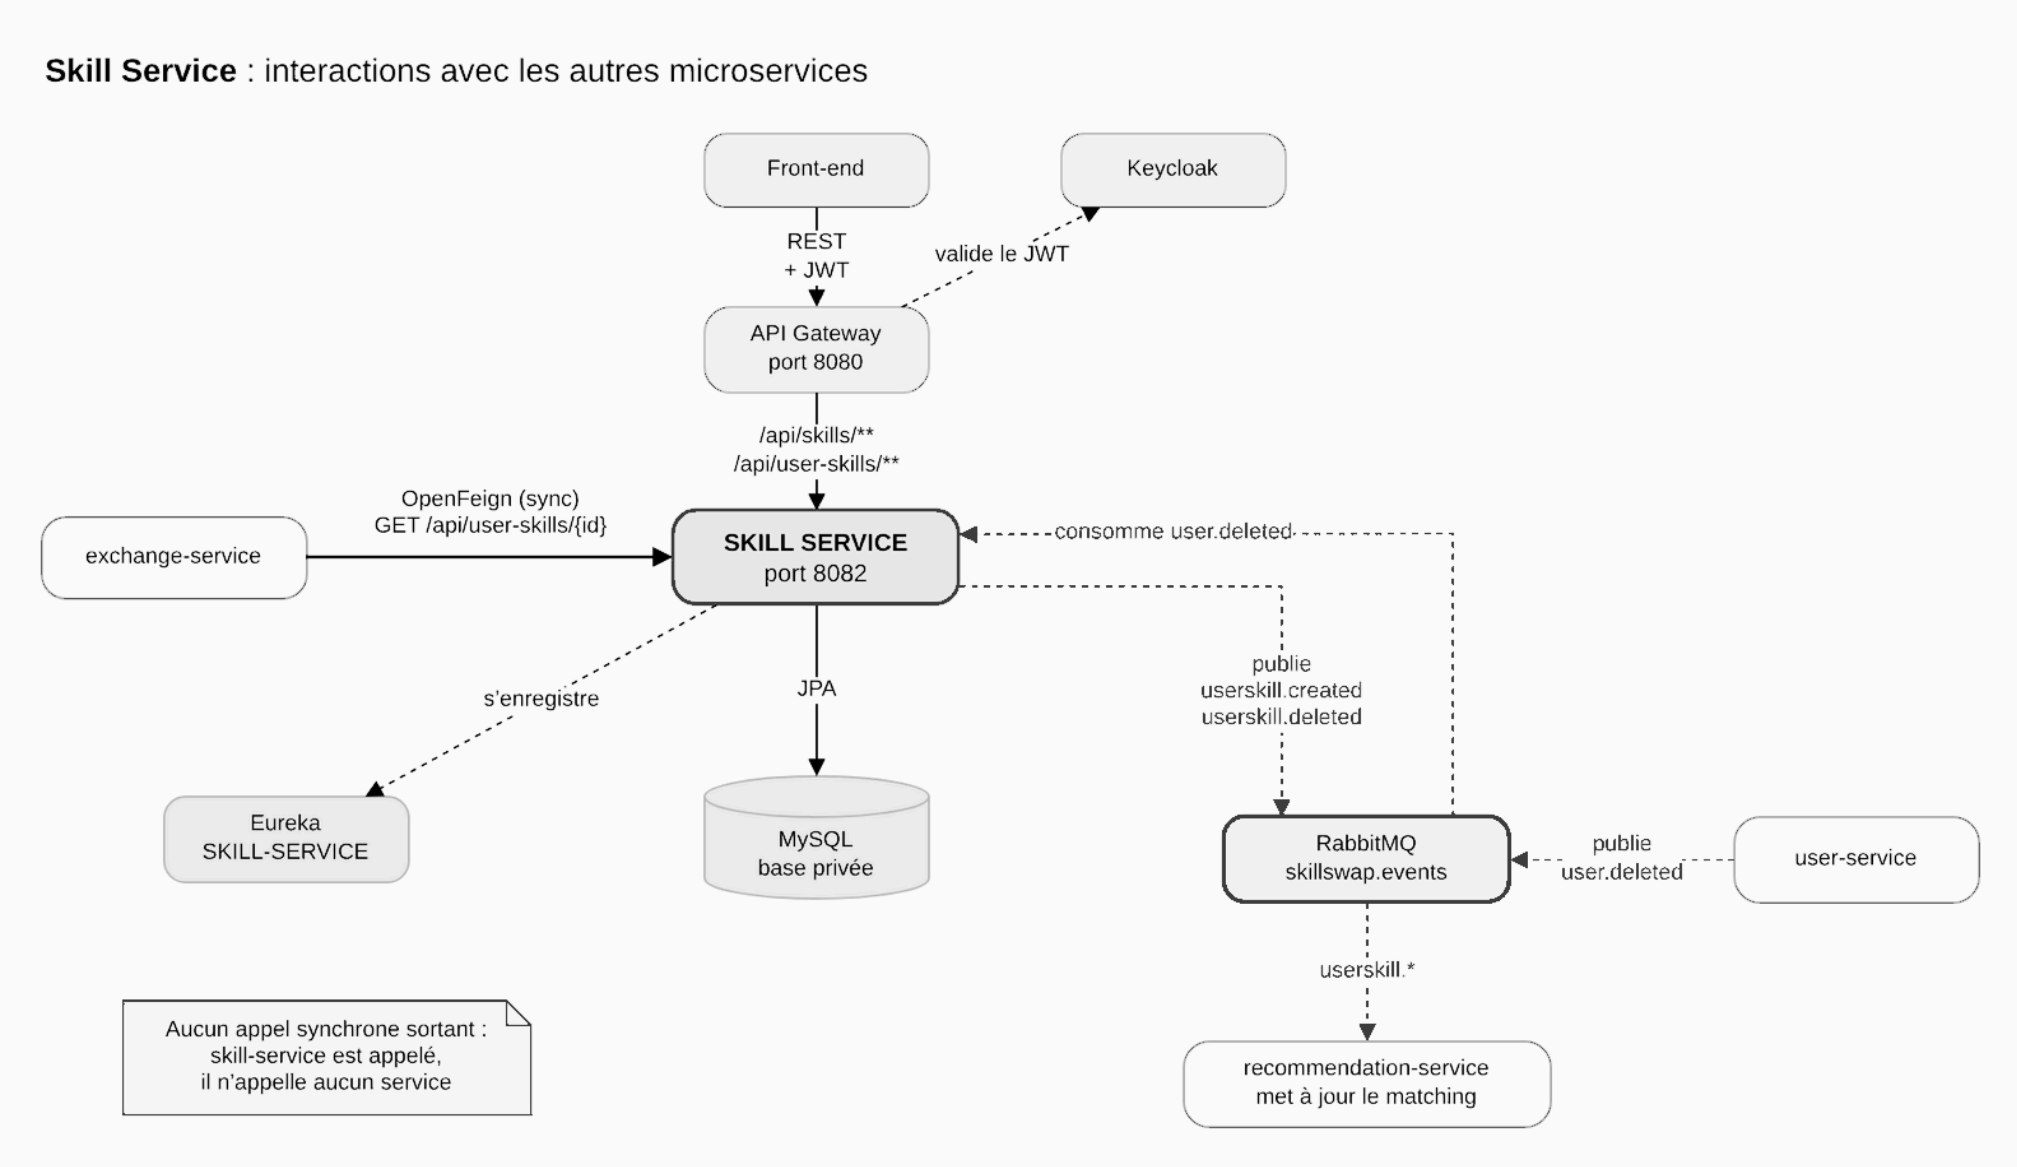

MS1 · user-service – Exemple de communication asynchrone

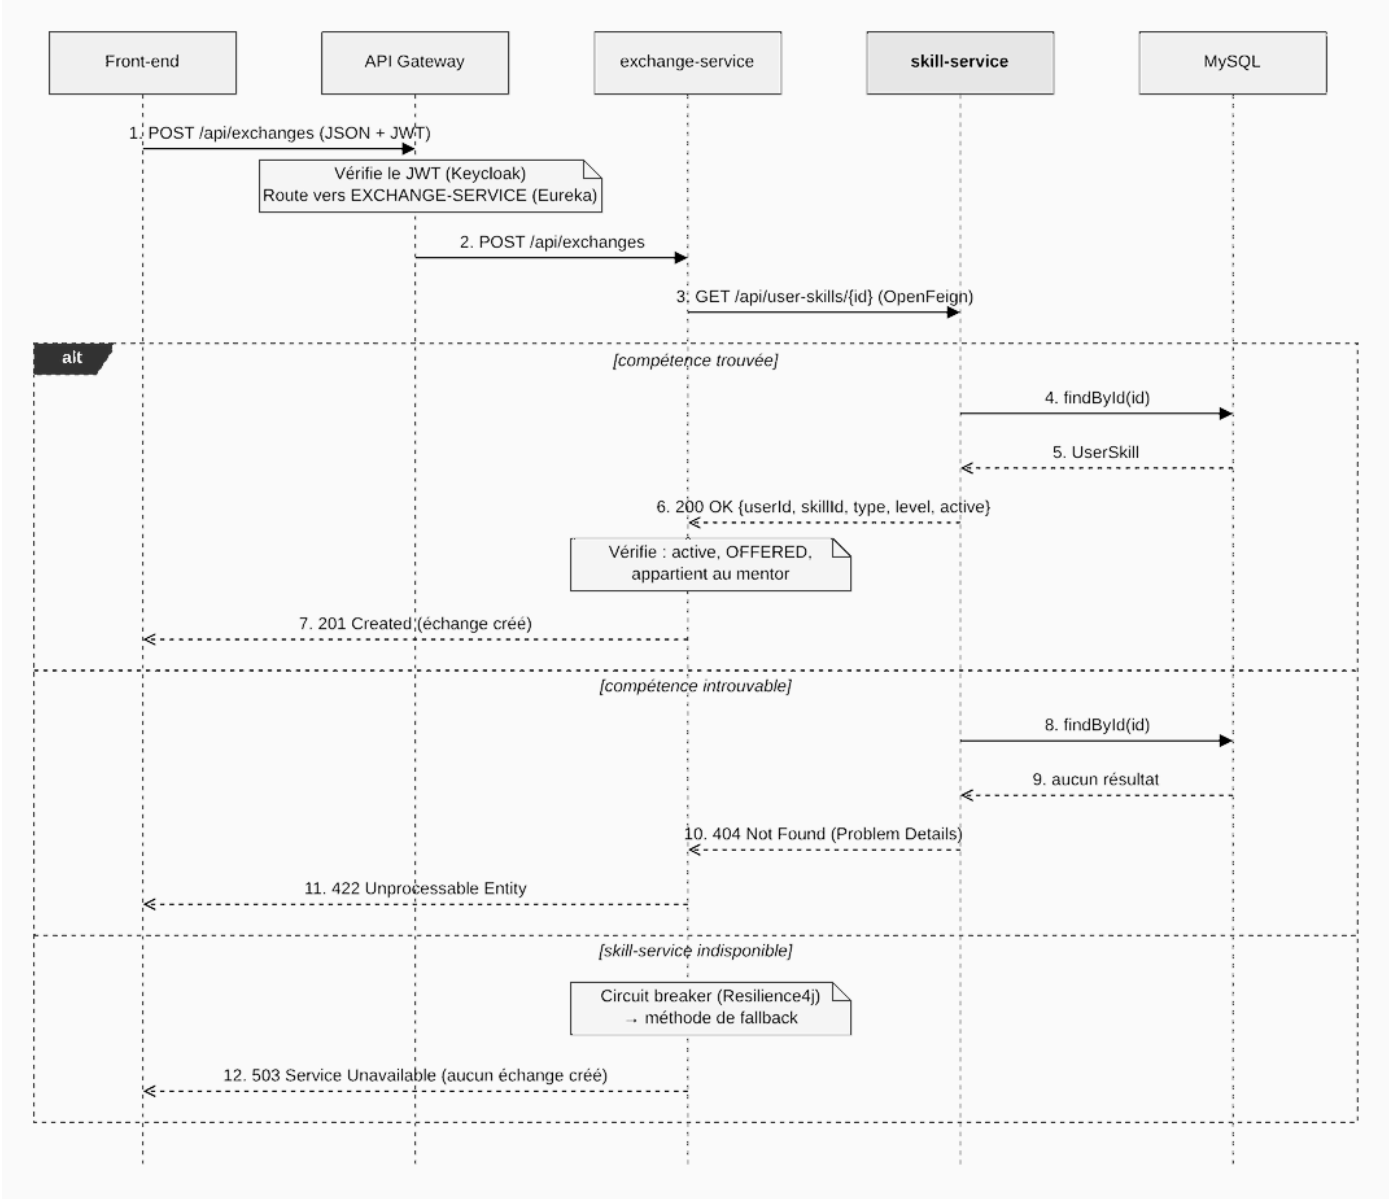

MS2 · skill-service – Diagramme de classes

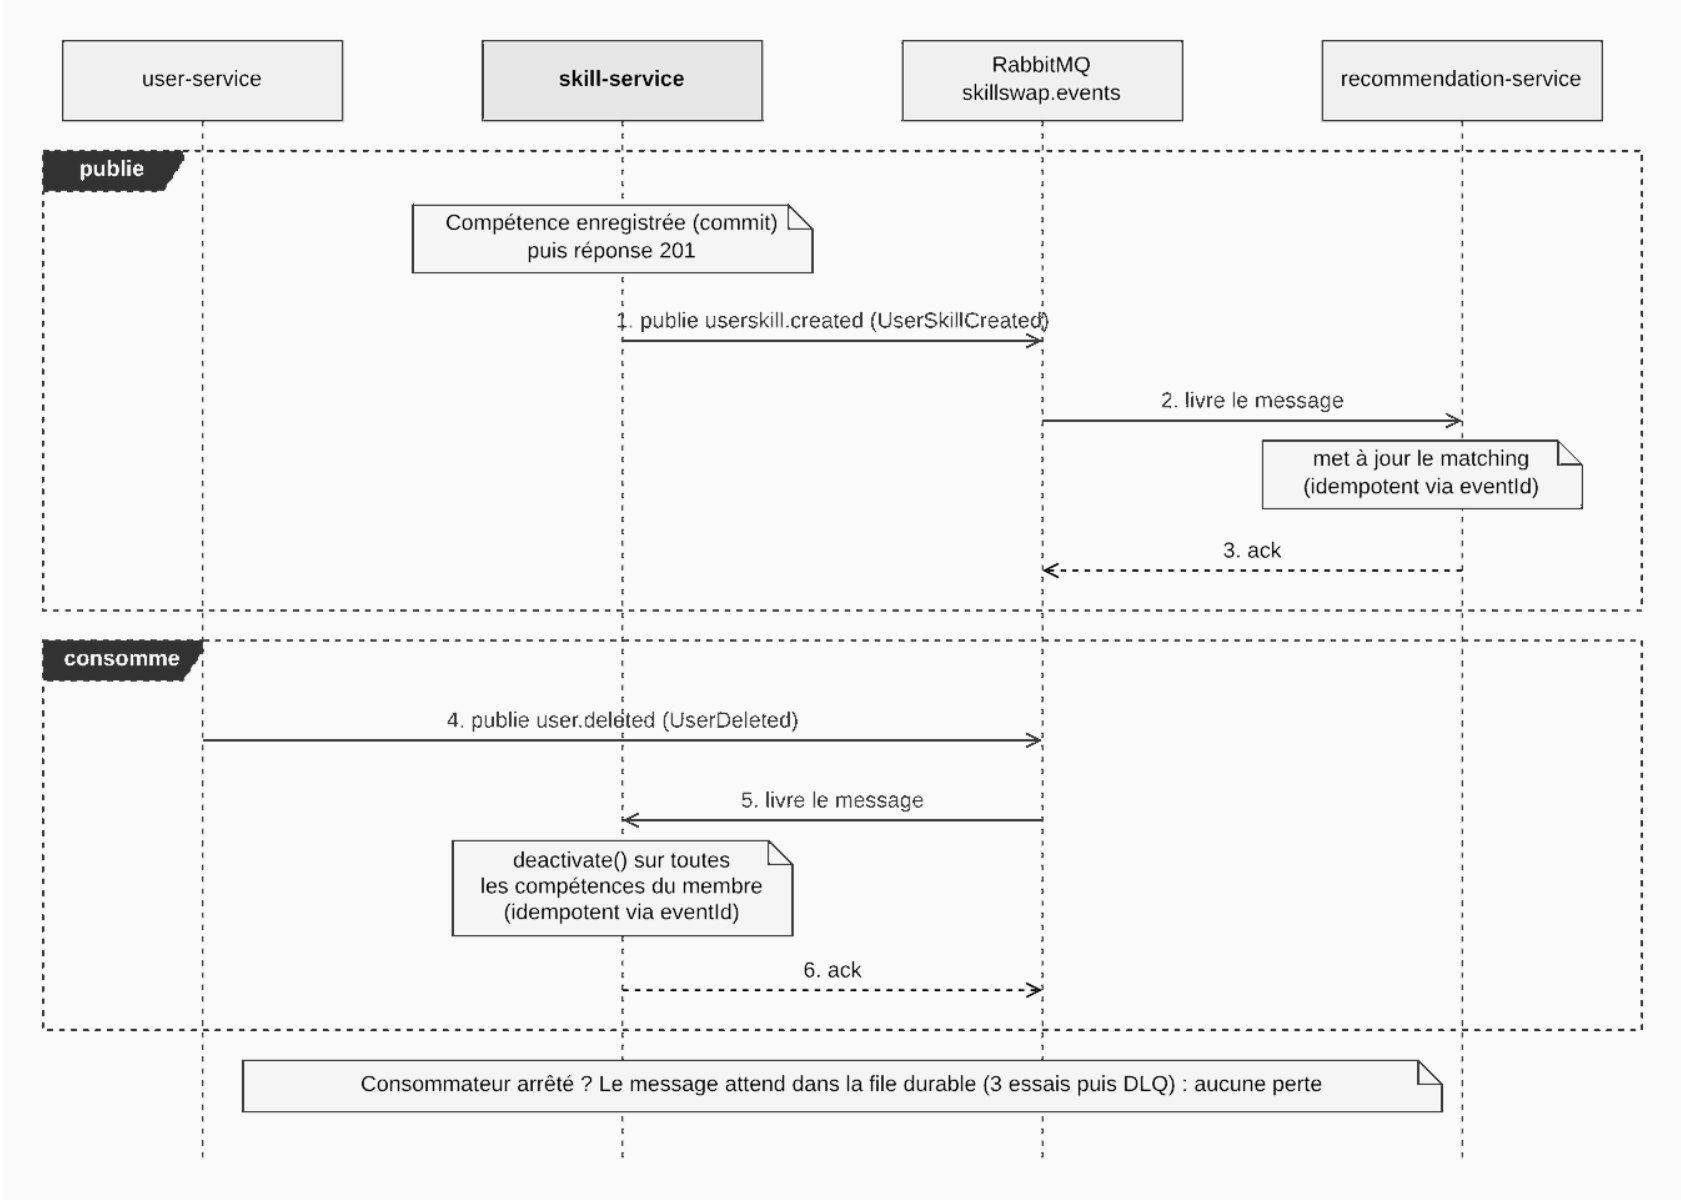

MS2 · skill-service – Interactions avec les autres microservices

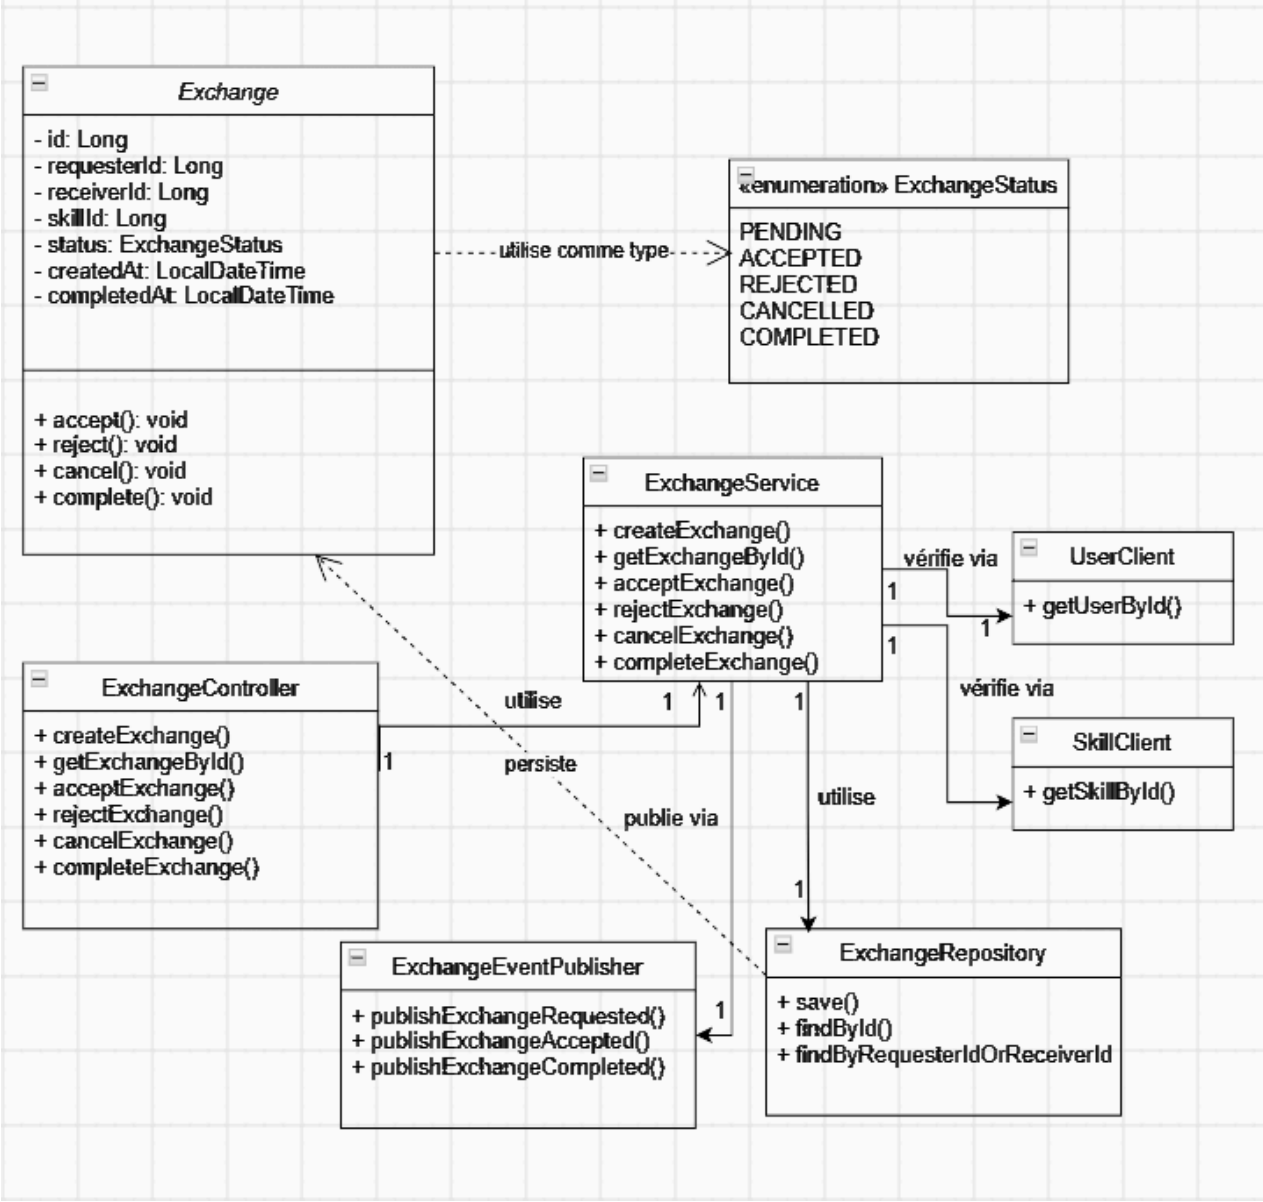

MS2 · skill-service – Exemple de communication synchrone

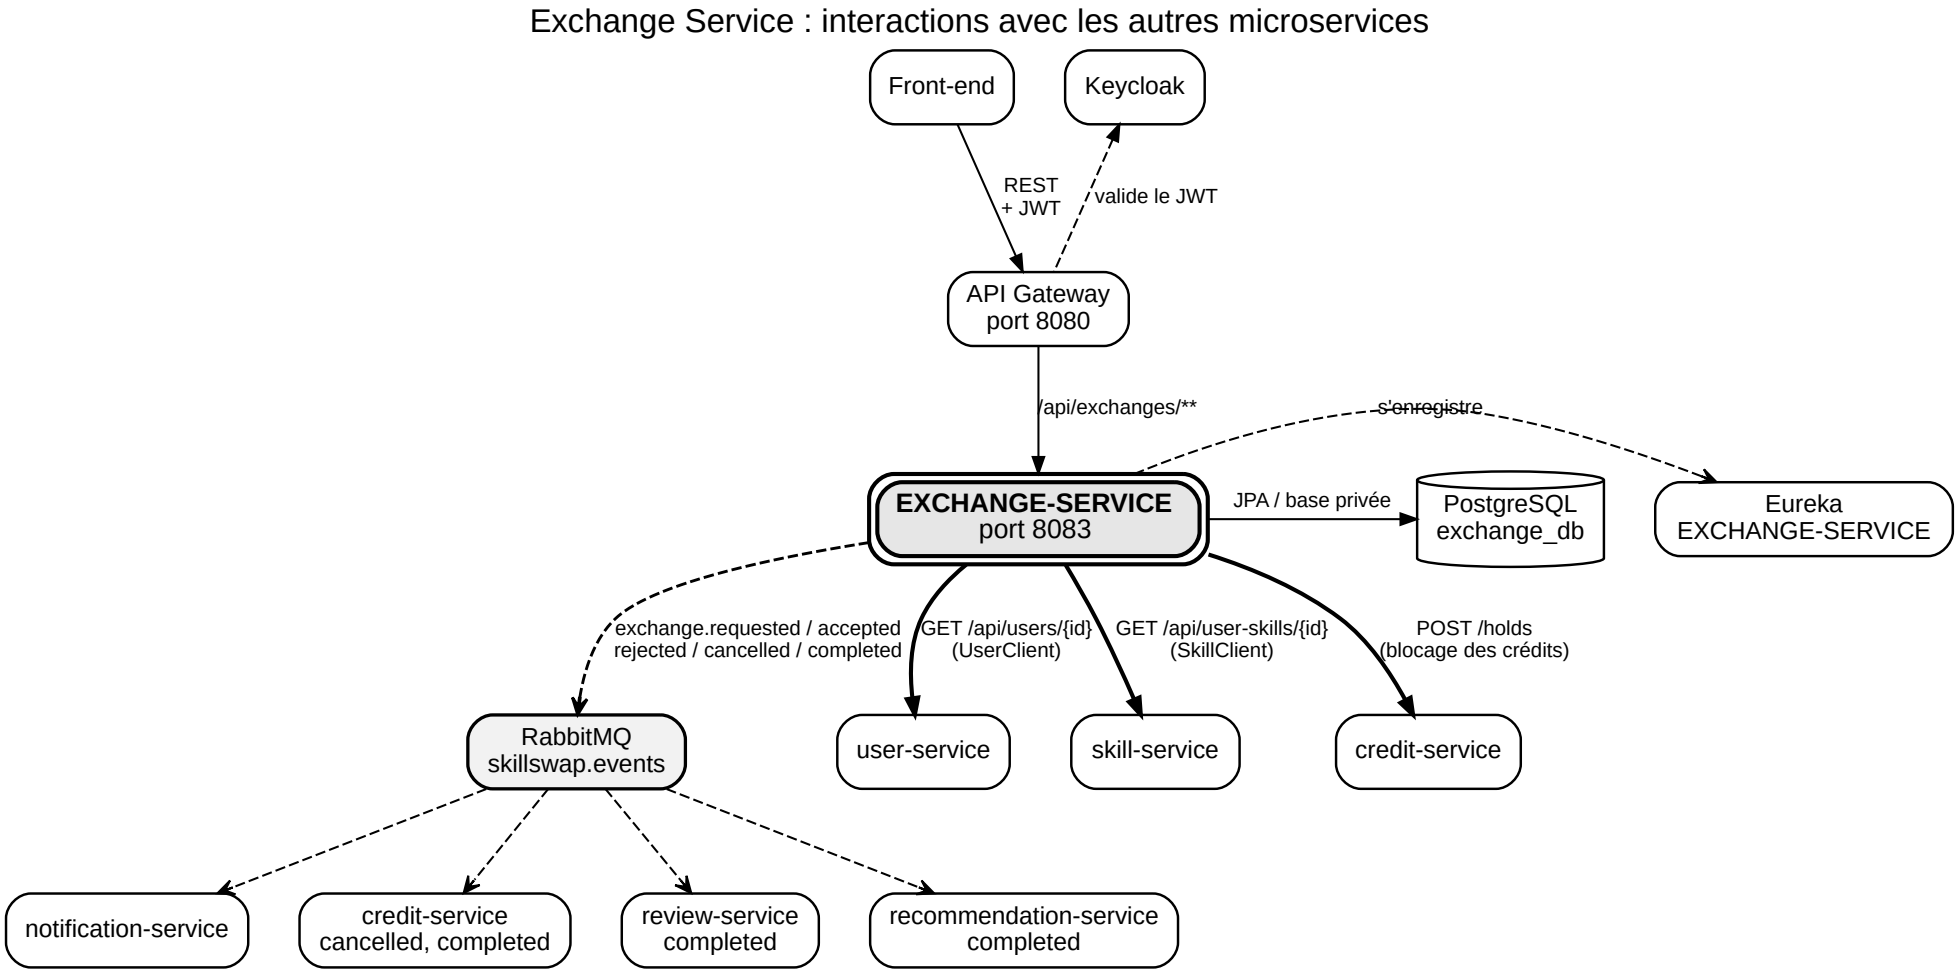

MS2 · skill-service – Exemple de communication asynchrone

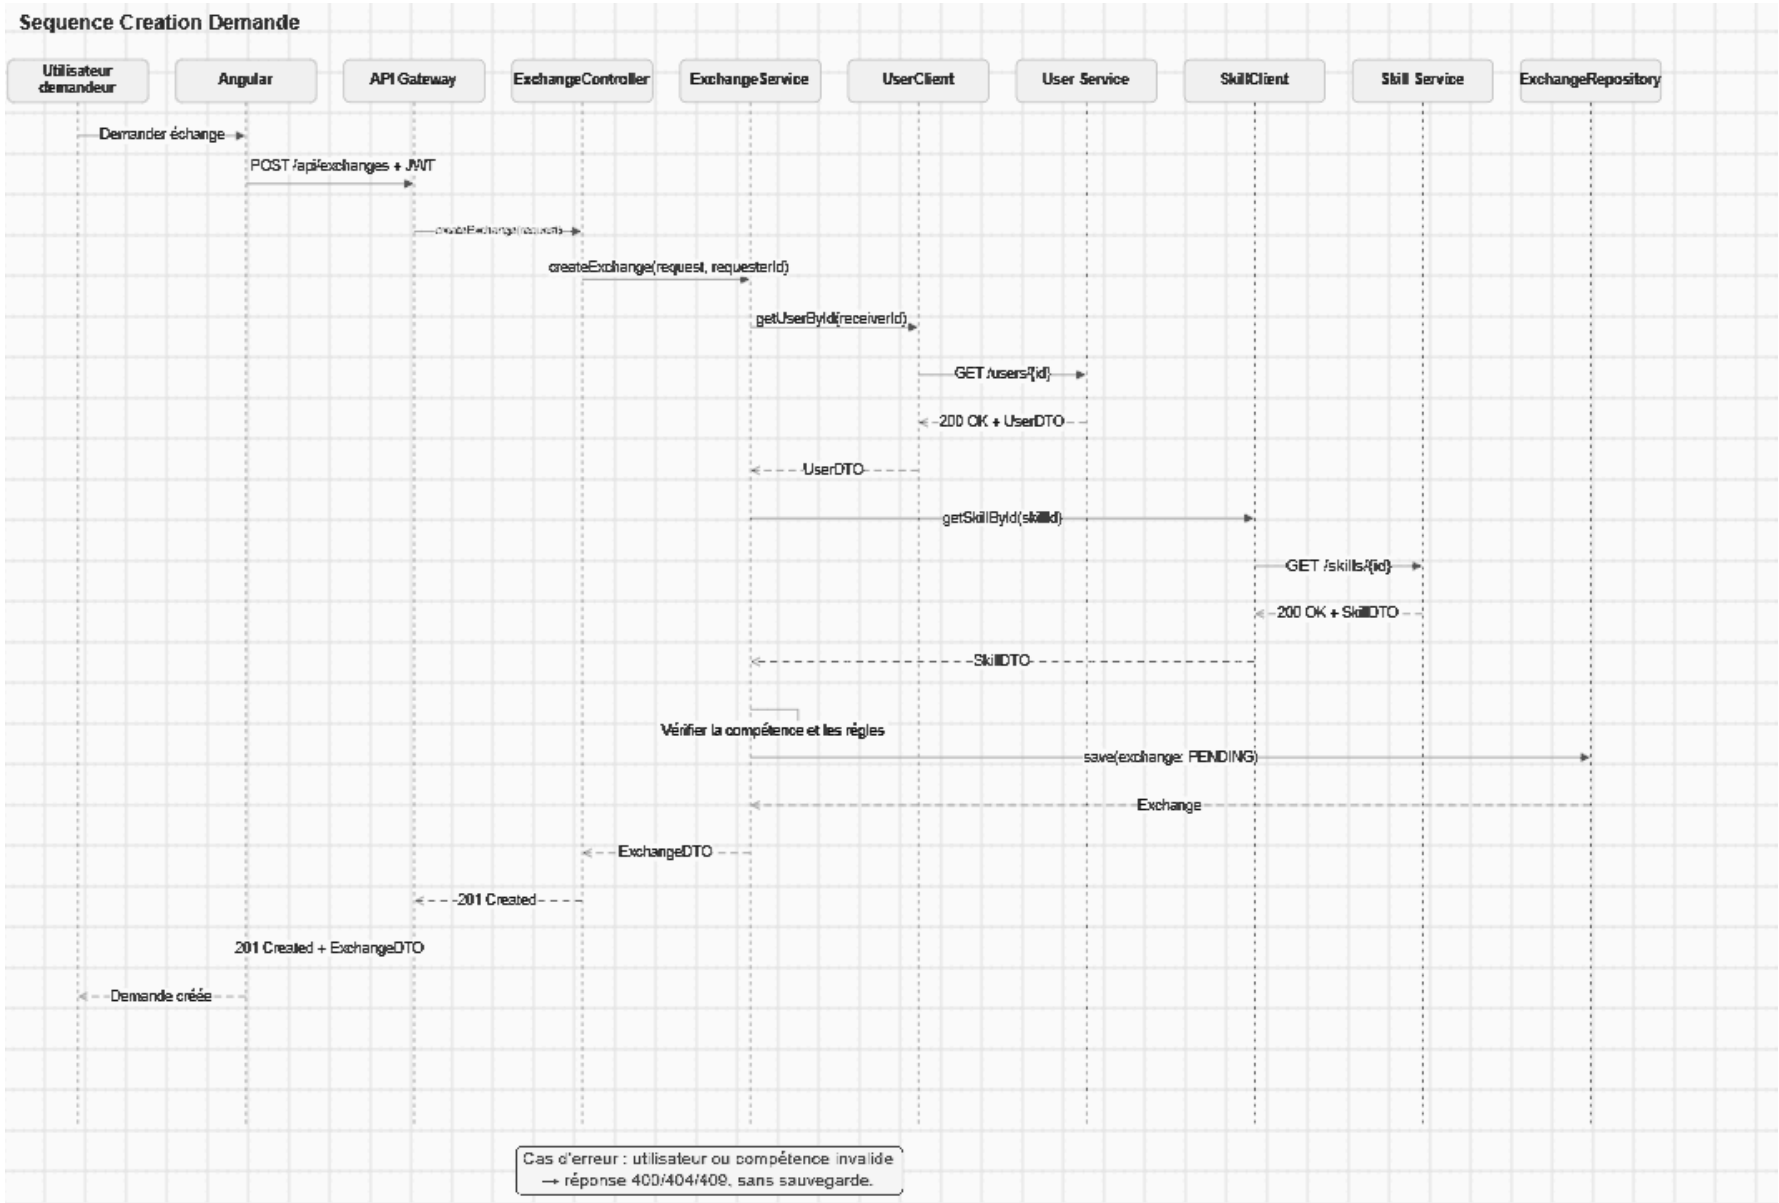

MS3 · exchange-service – Diagramme de classes

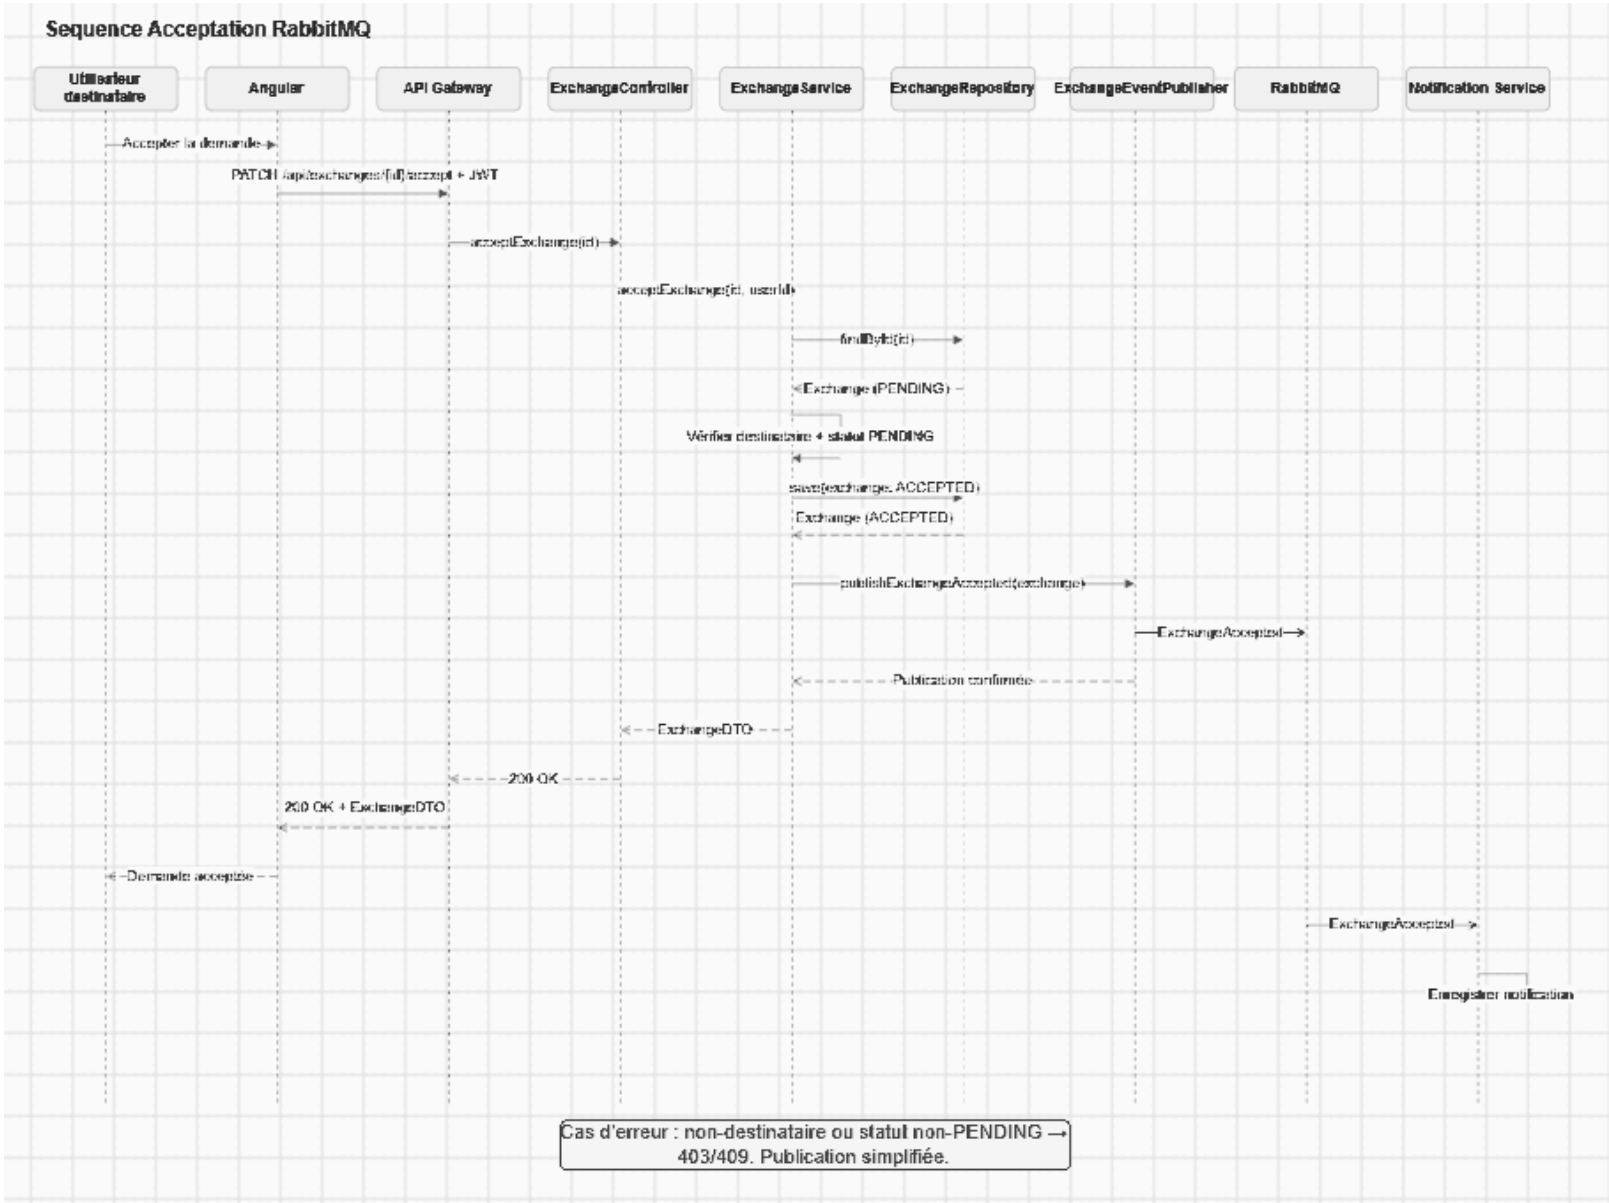

MS3 · exchange-service – Interactions avec les autres microservices

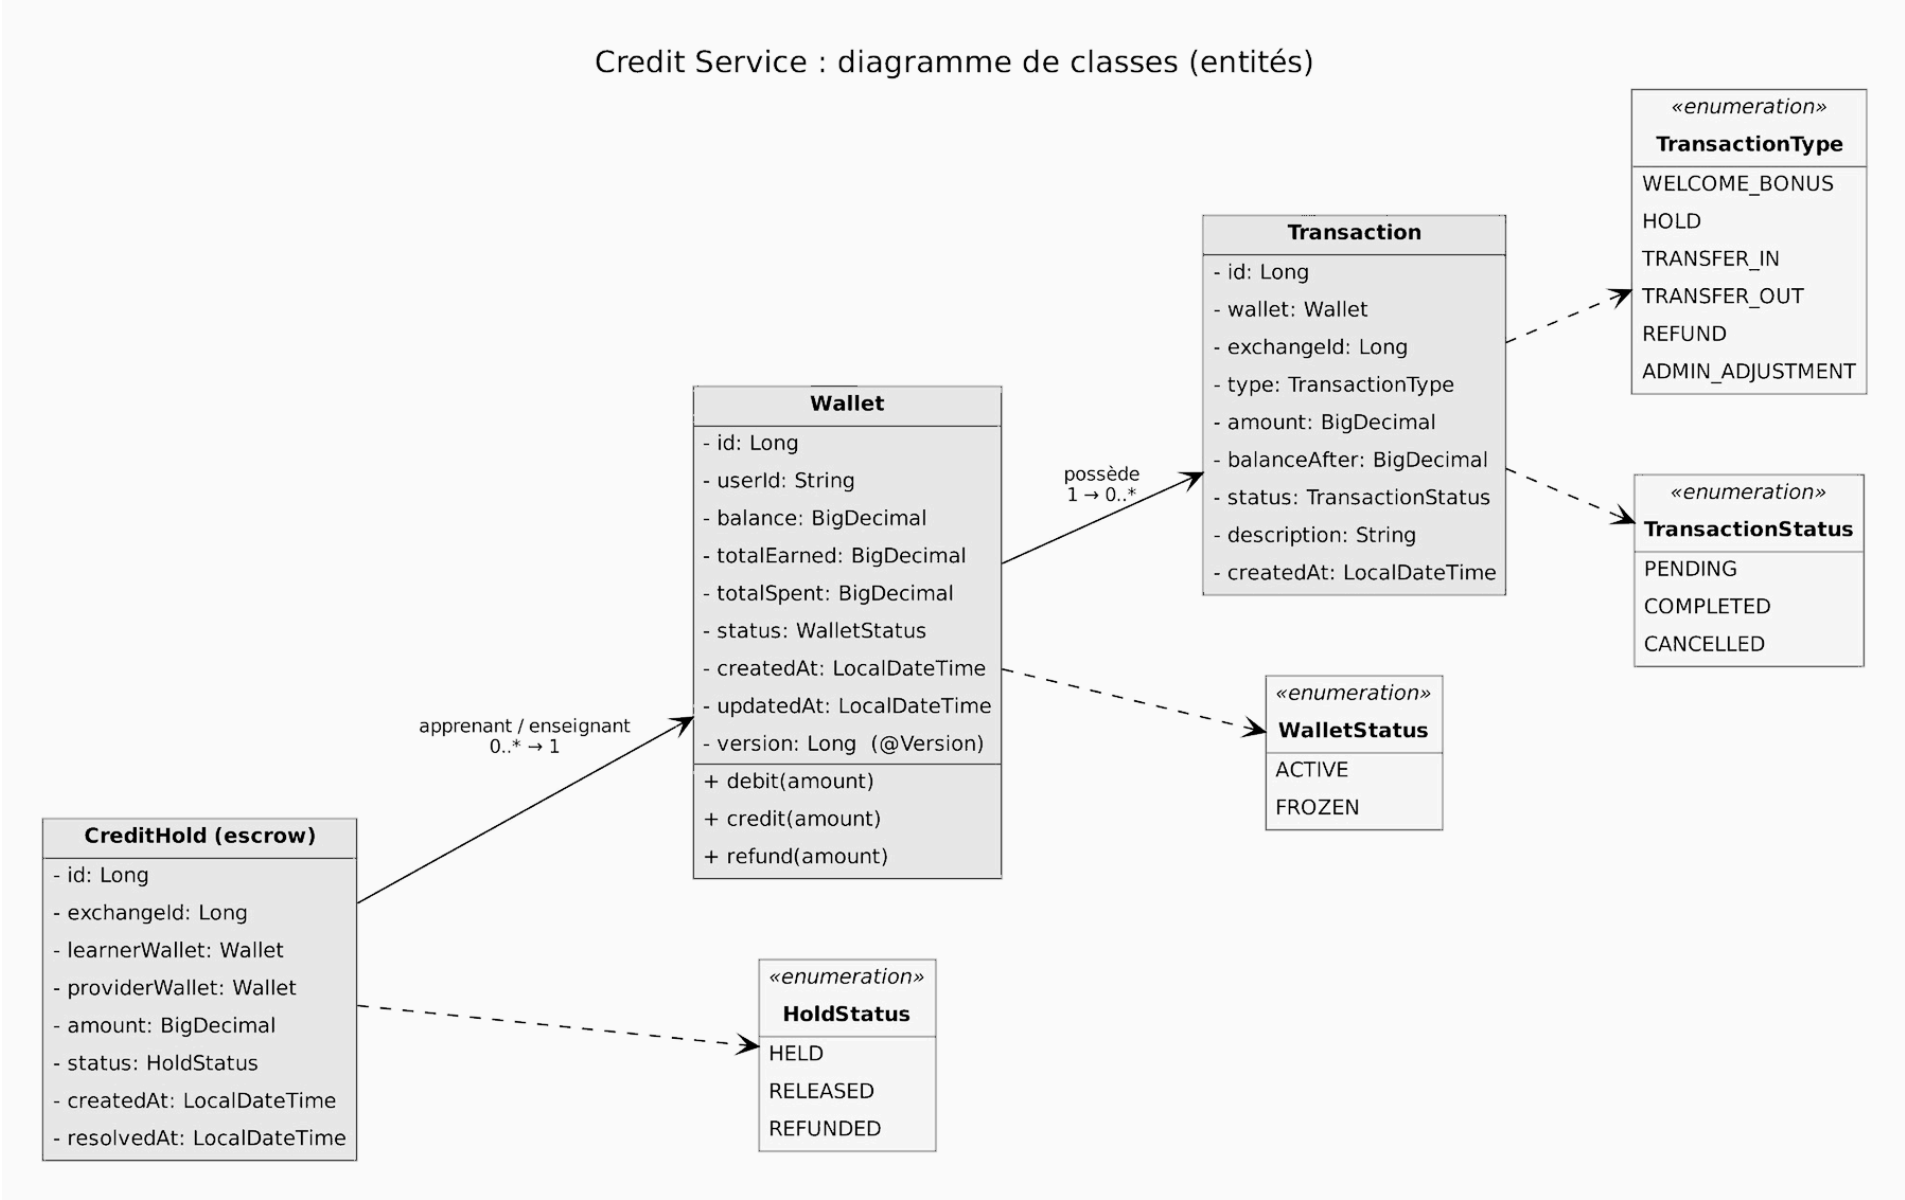

MS3 · exchange-service – Exemple de communication synchrone

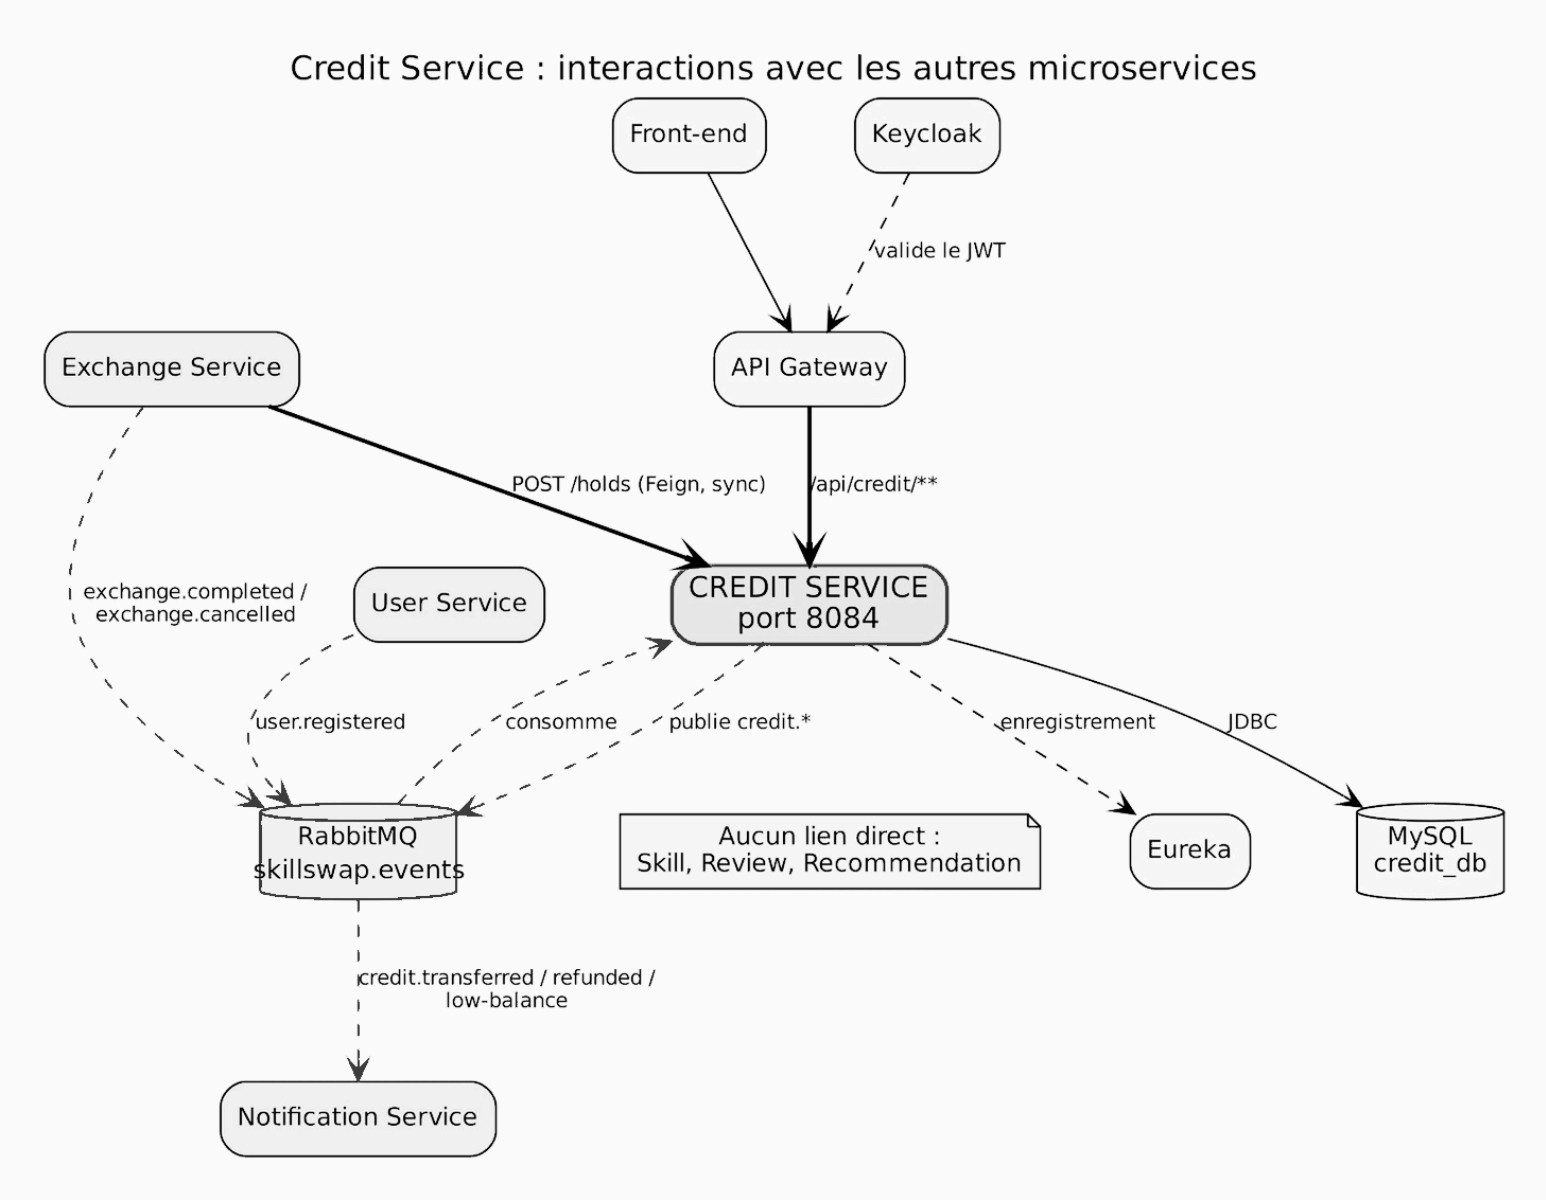

MS3 · exchange-service – Exemple de communication asynchrone

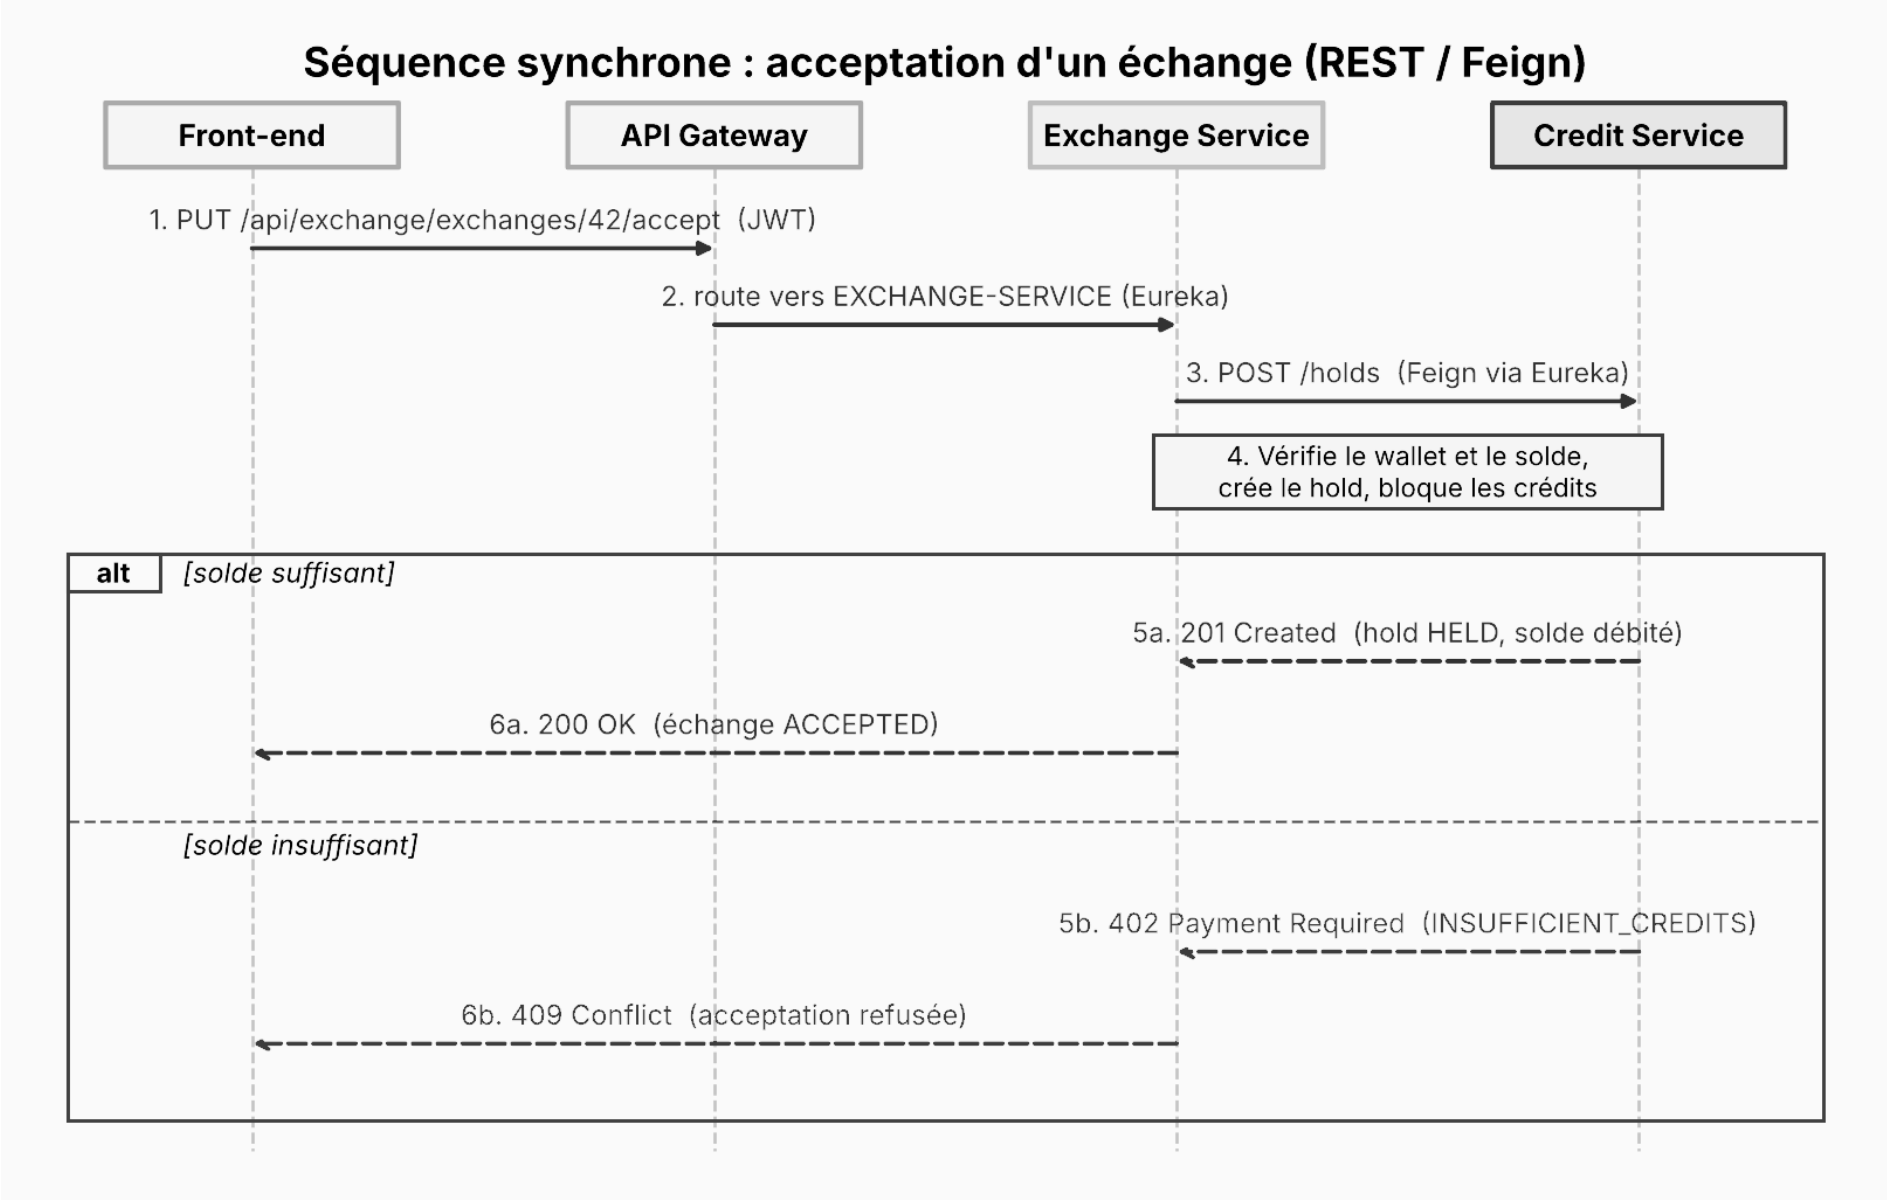

MS4 · credit-service – Diagramme de classes

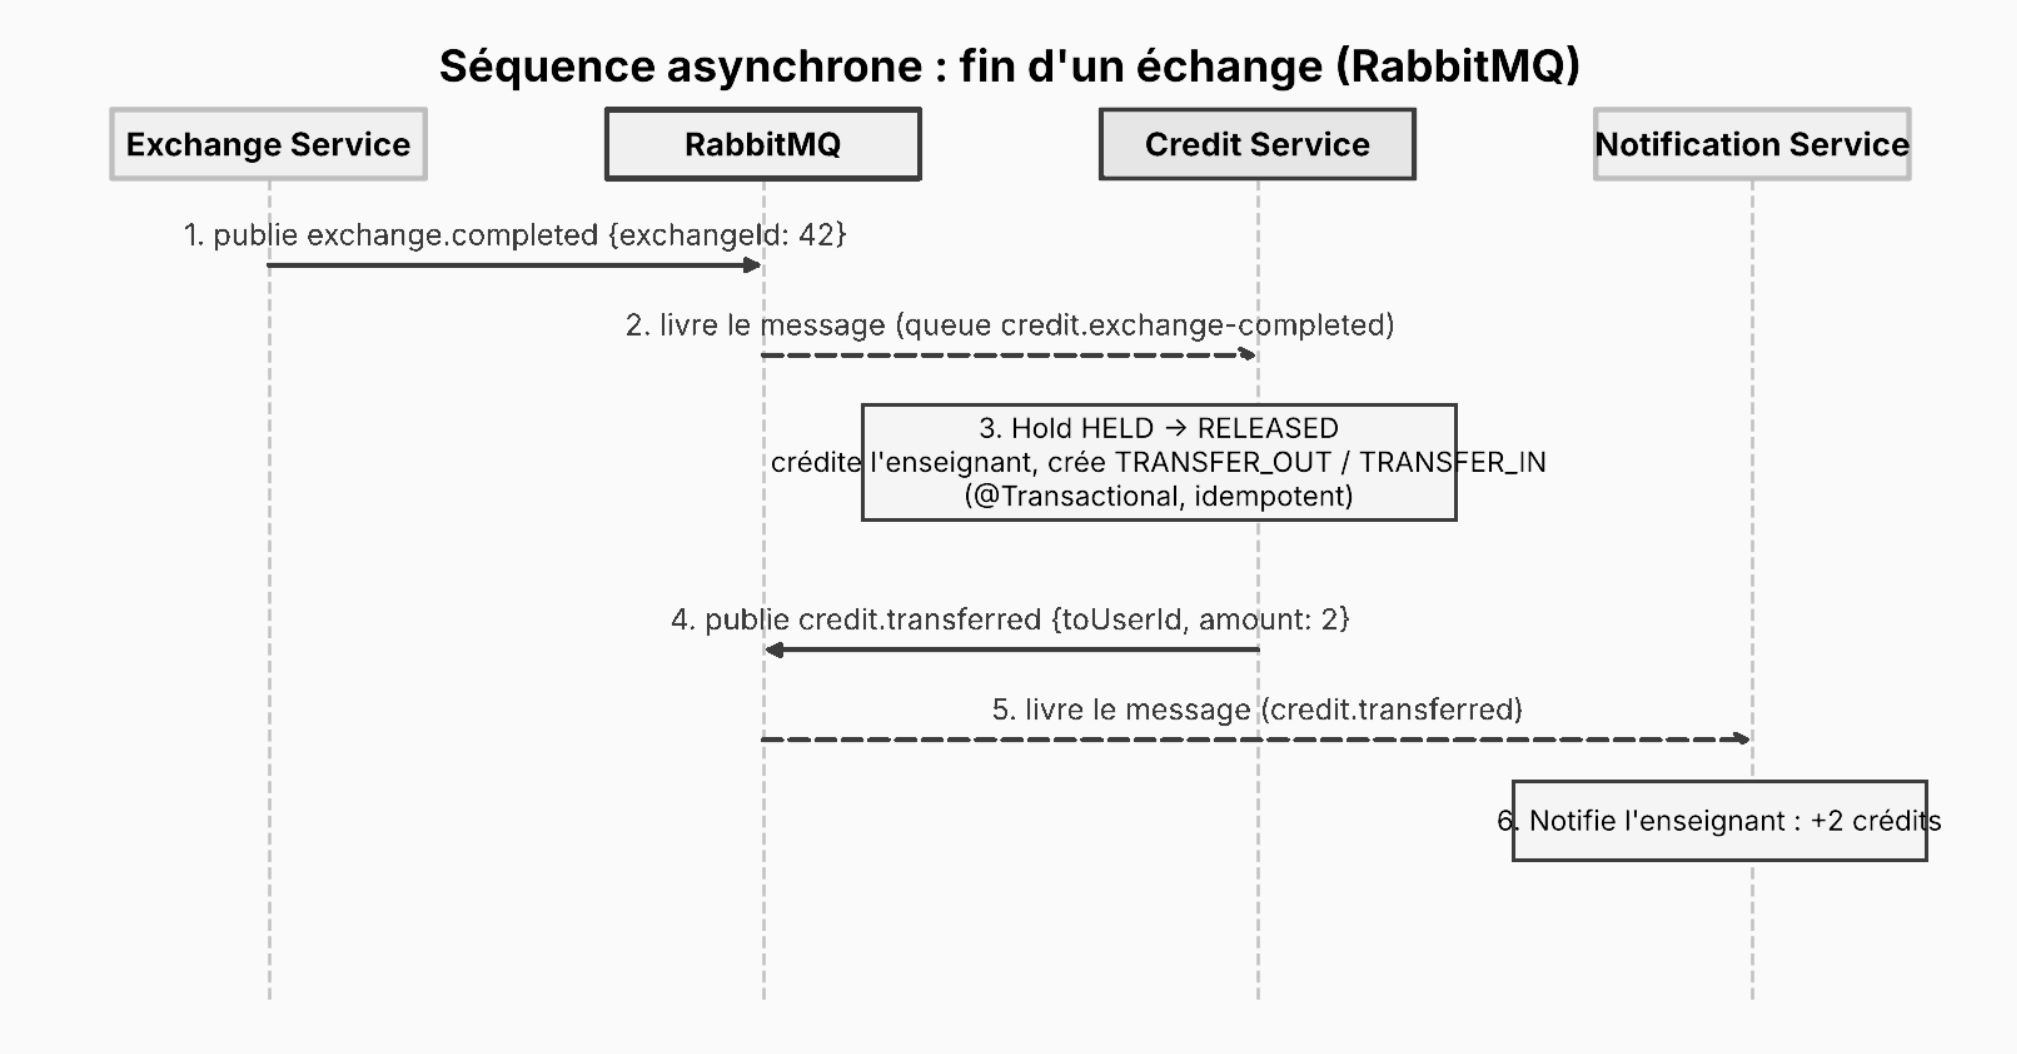

MS4 · credit-service – Interactions avec les autres microservices

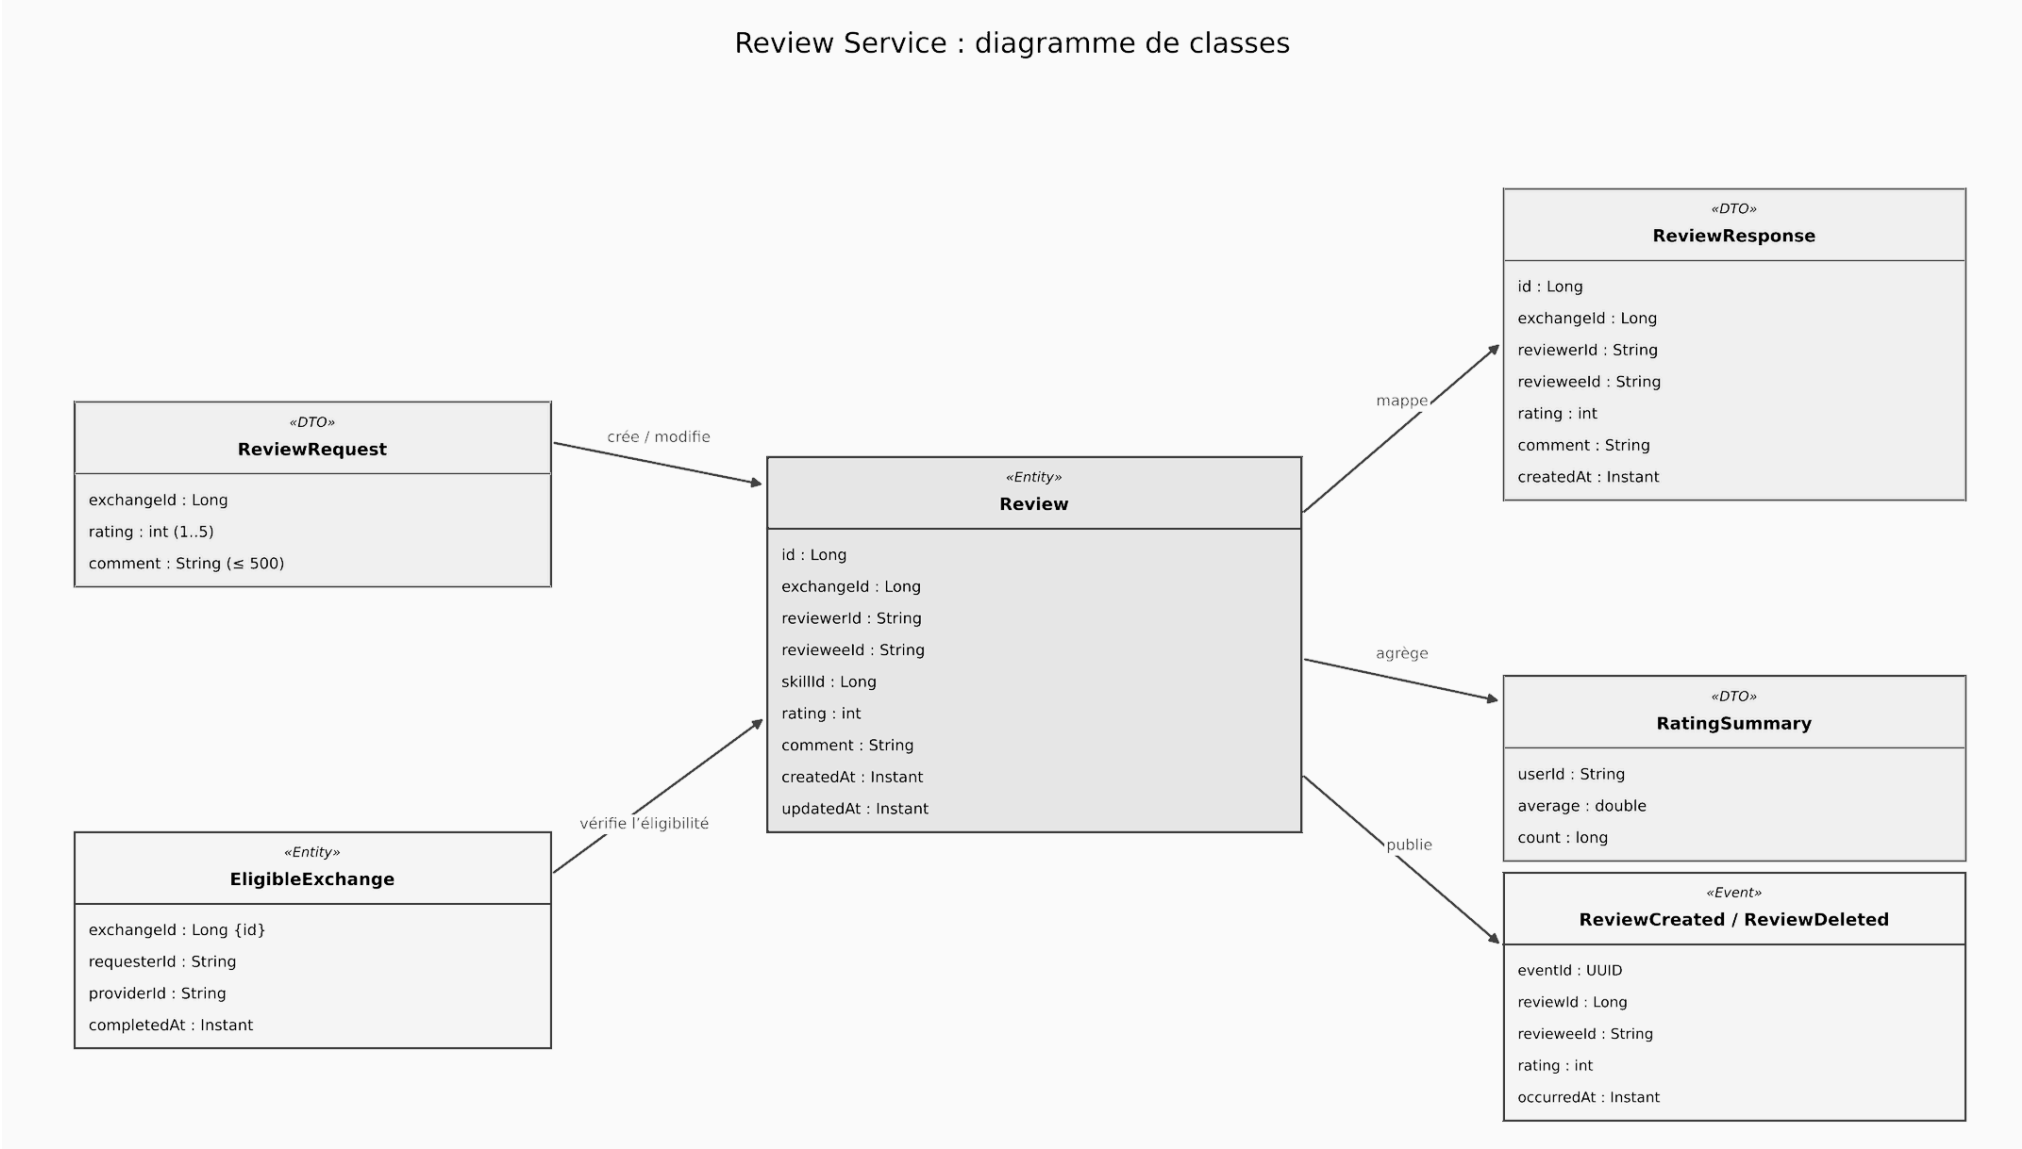

MS4 · credit-service – Exemple de communication synchrone

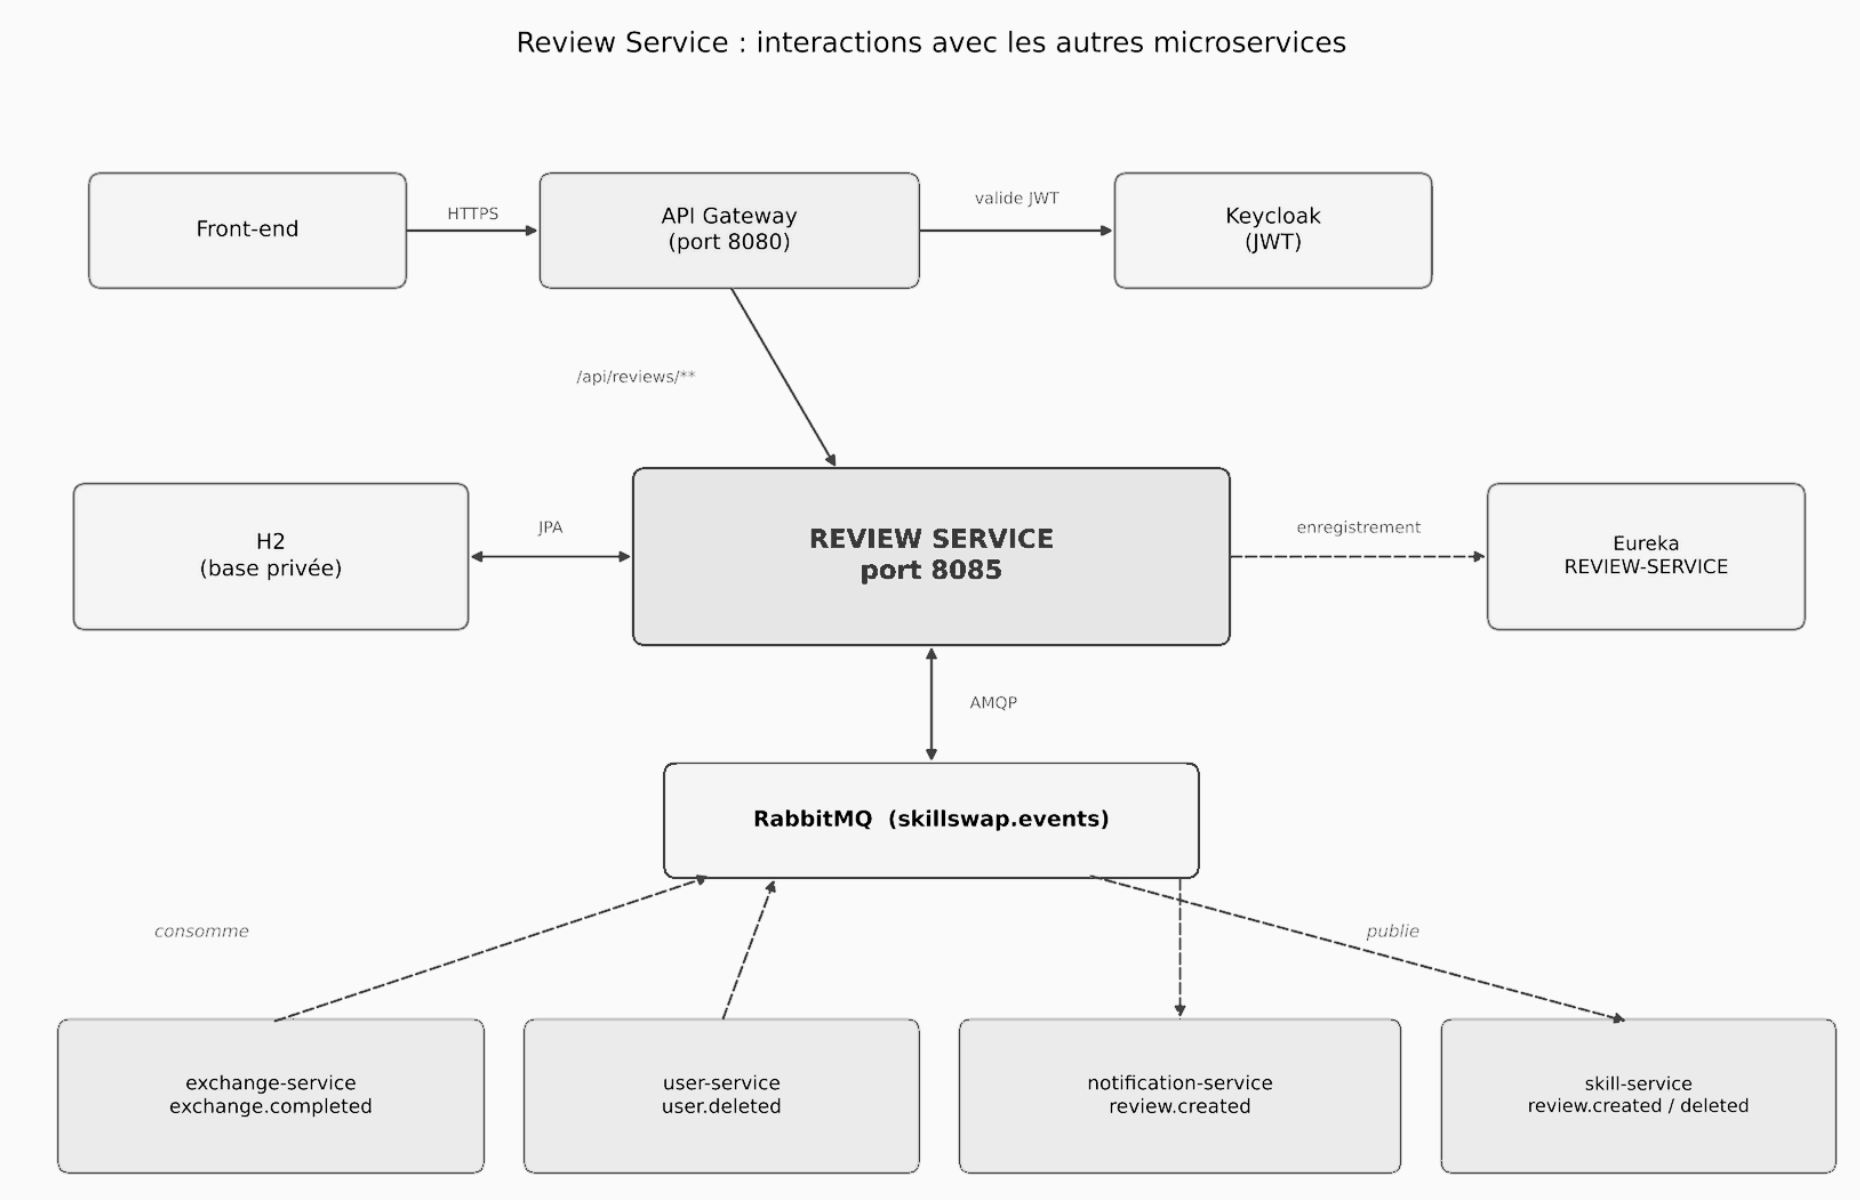

MS4 · credit-service – Exemple de communication asynchrone

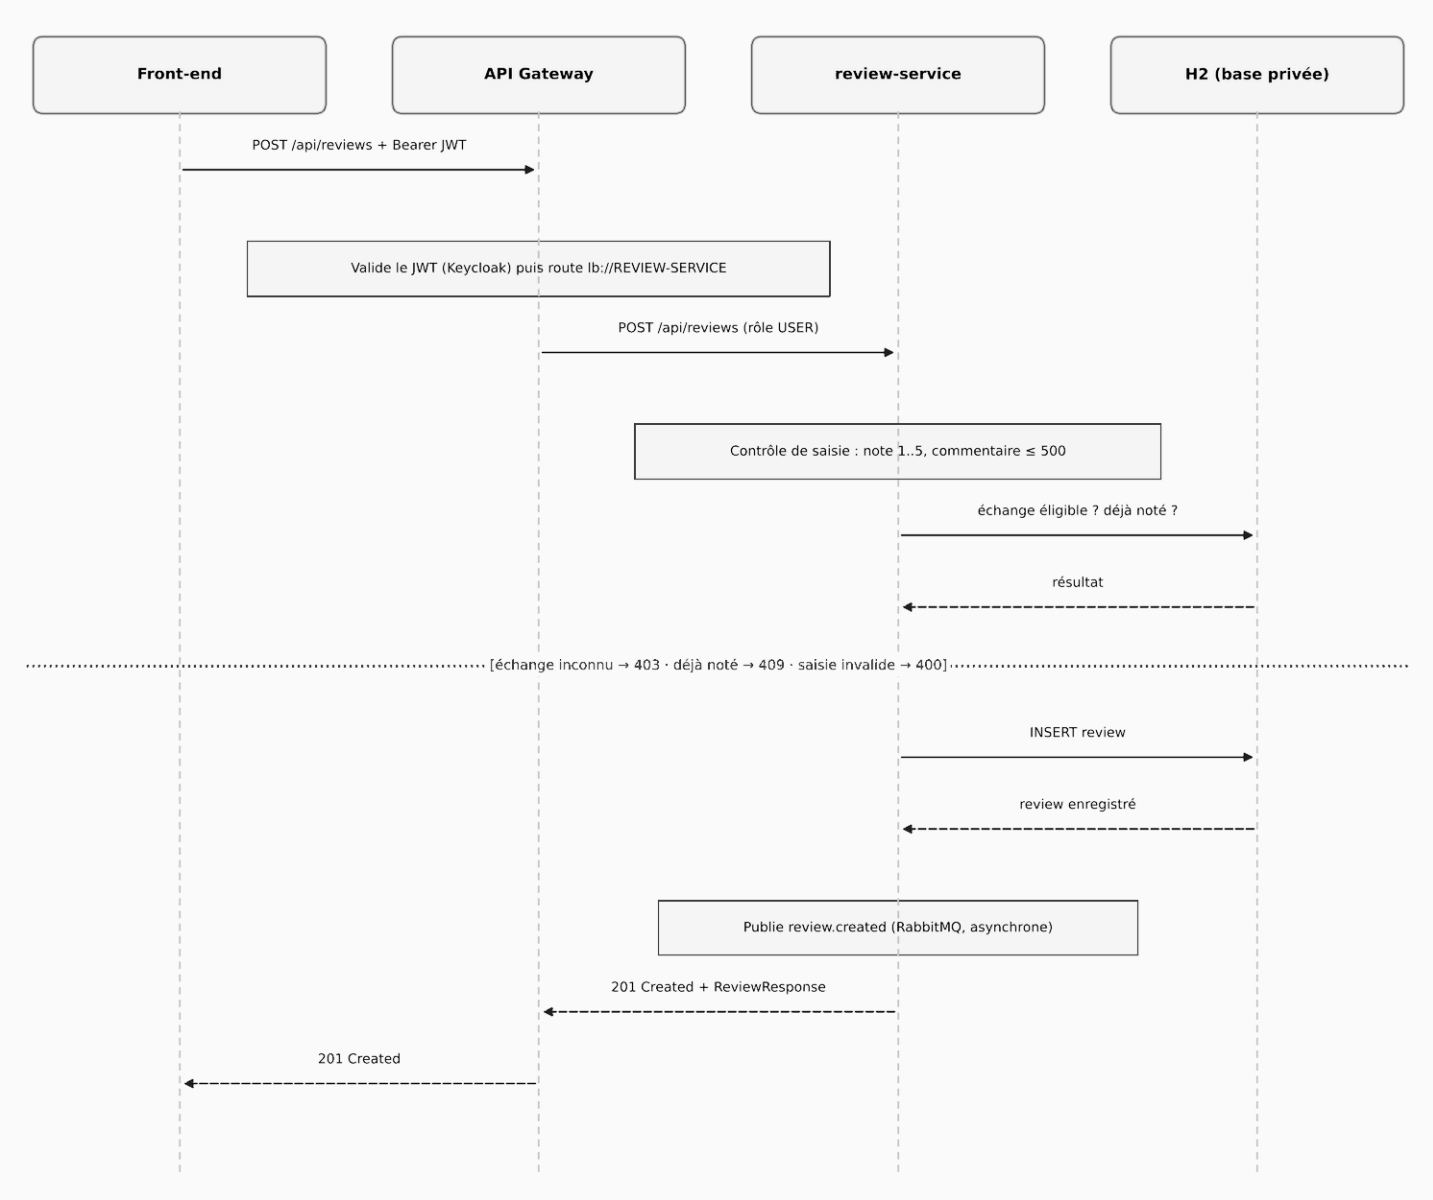

MS5 · review-service – Diagramme de classes

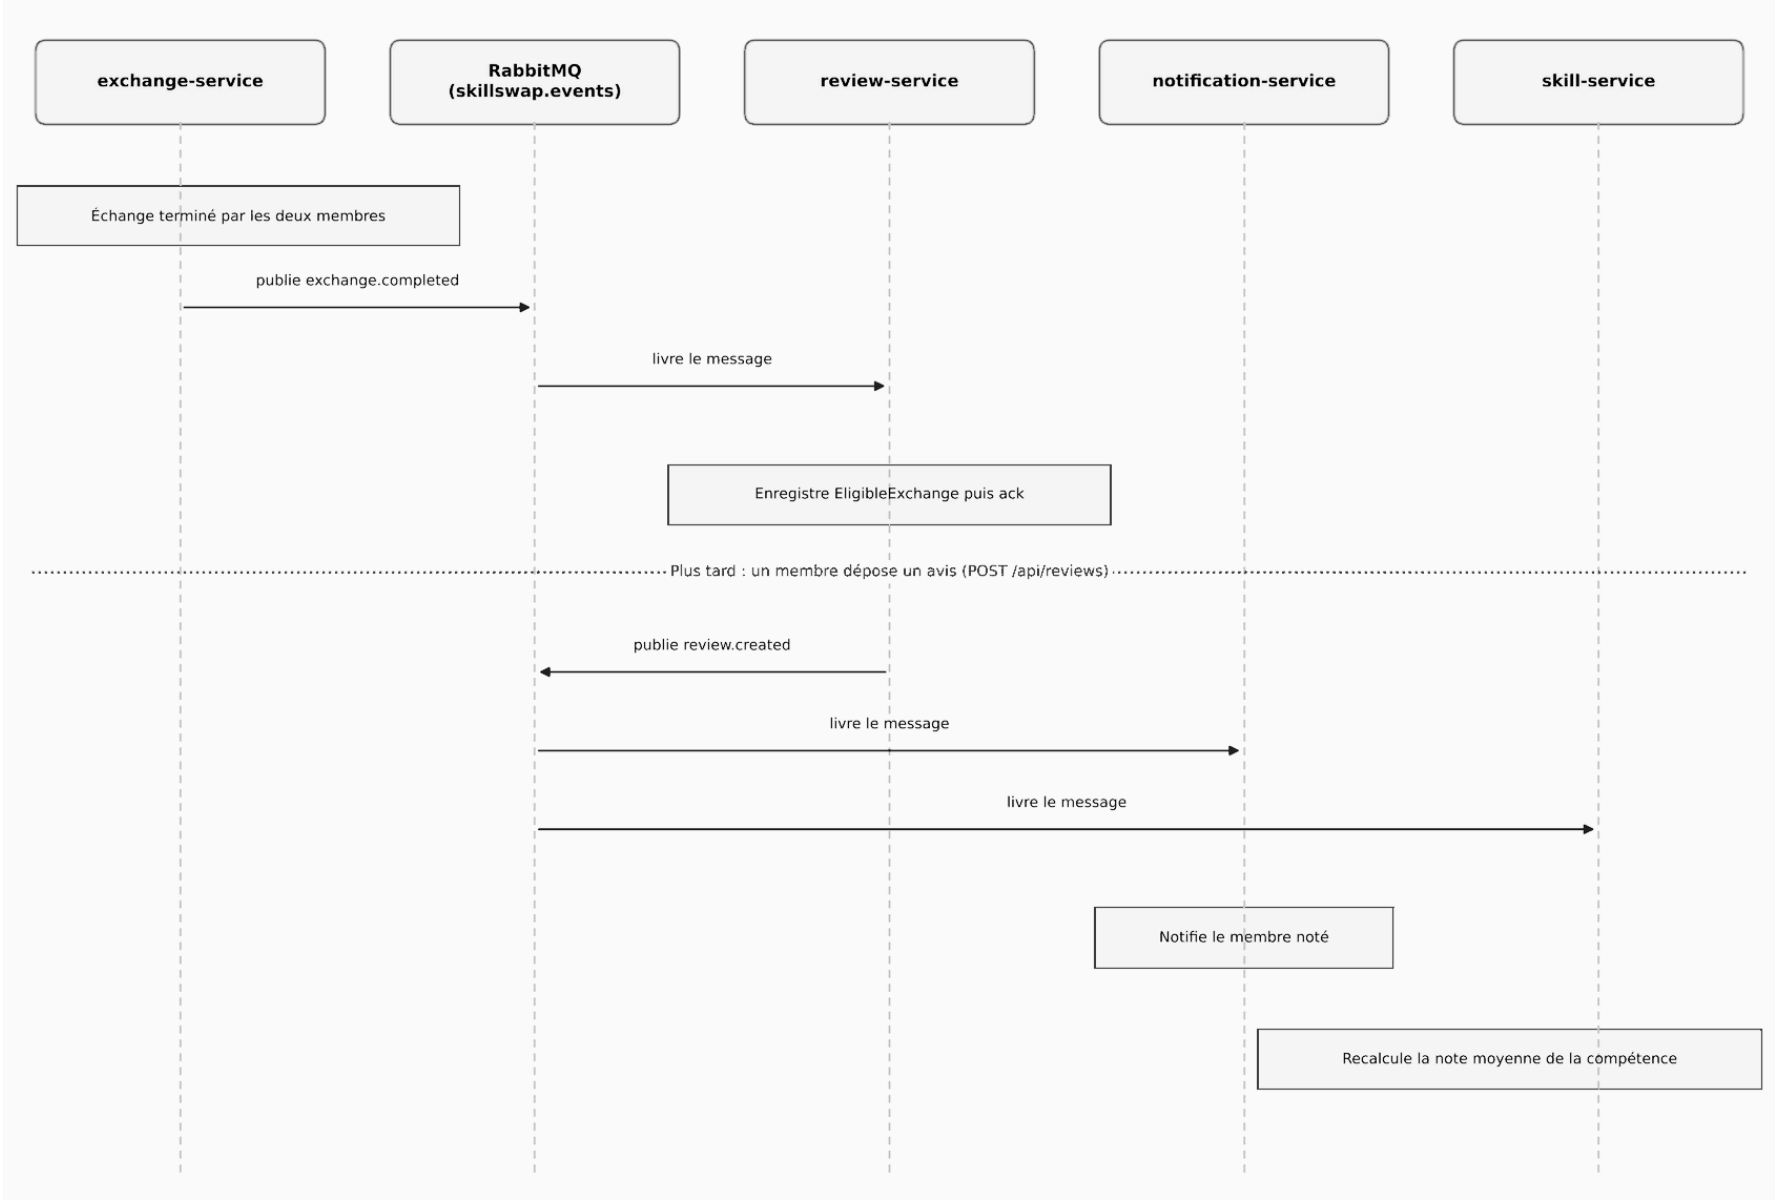

MS5 · review-service – Interactions avec les autres microservices

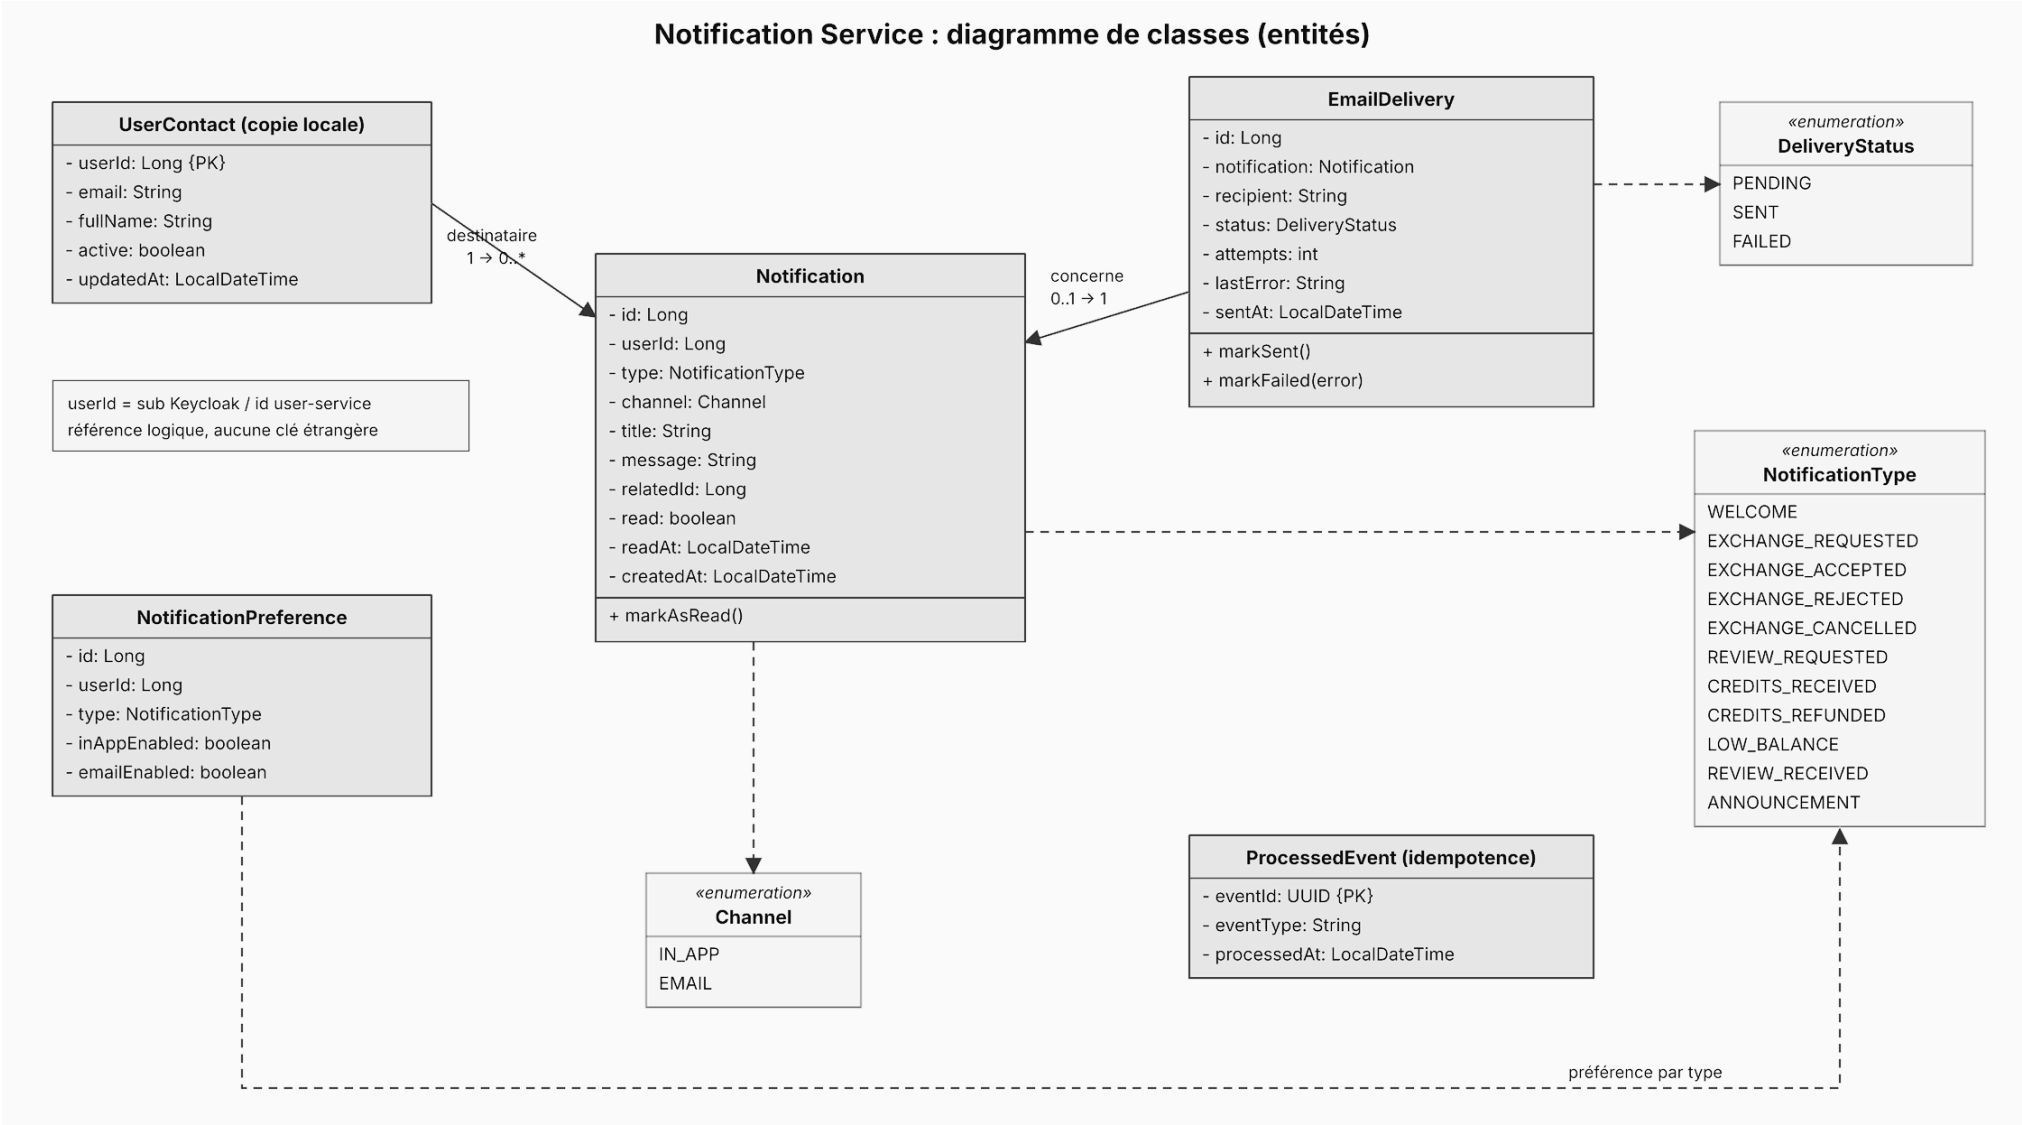

MS5 · review-service – Exemple de communication synchrone

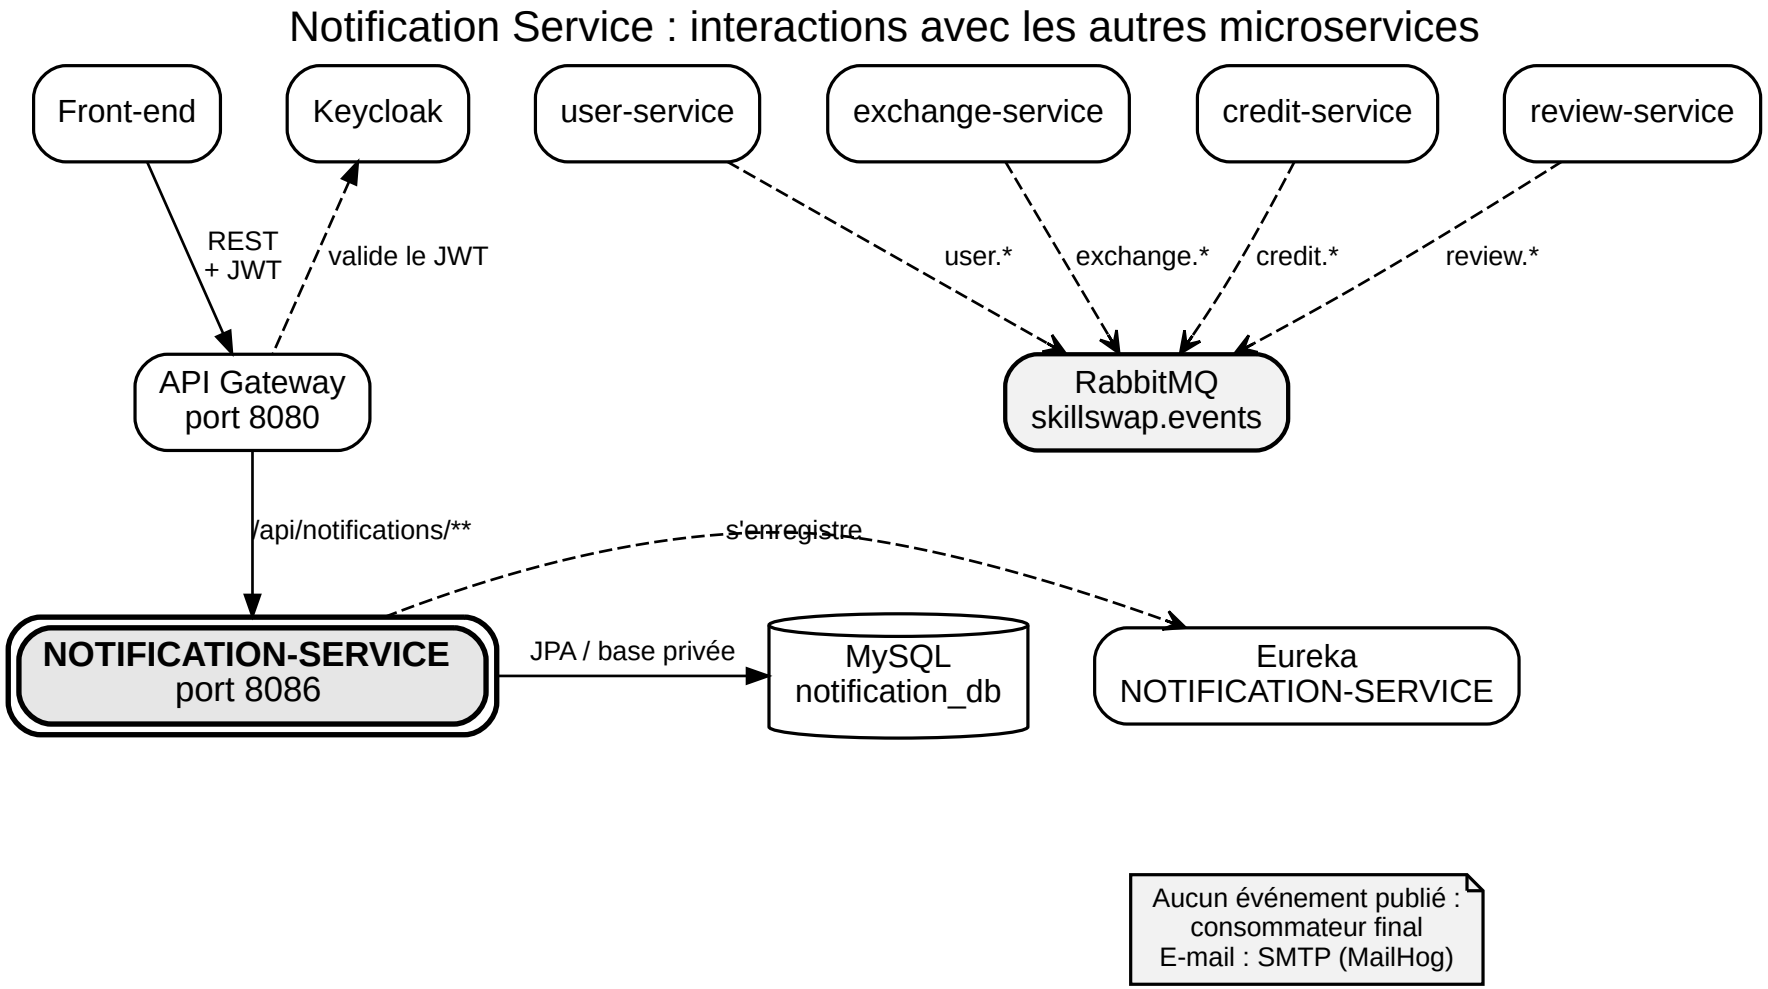

MS5 · review-service – Exemple de communication asynchrone

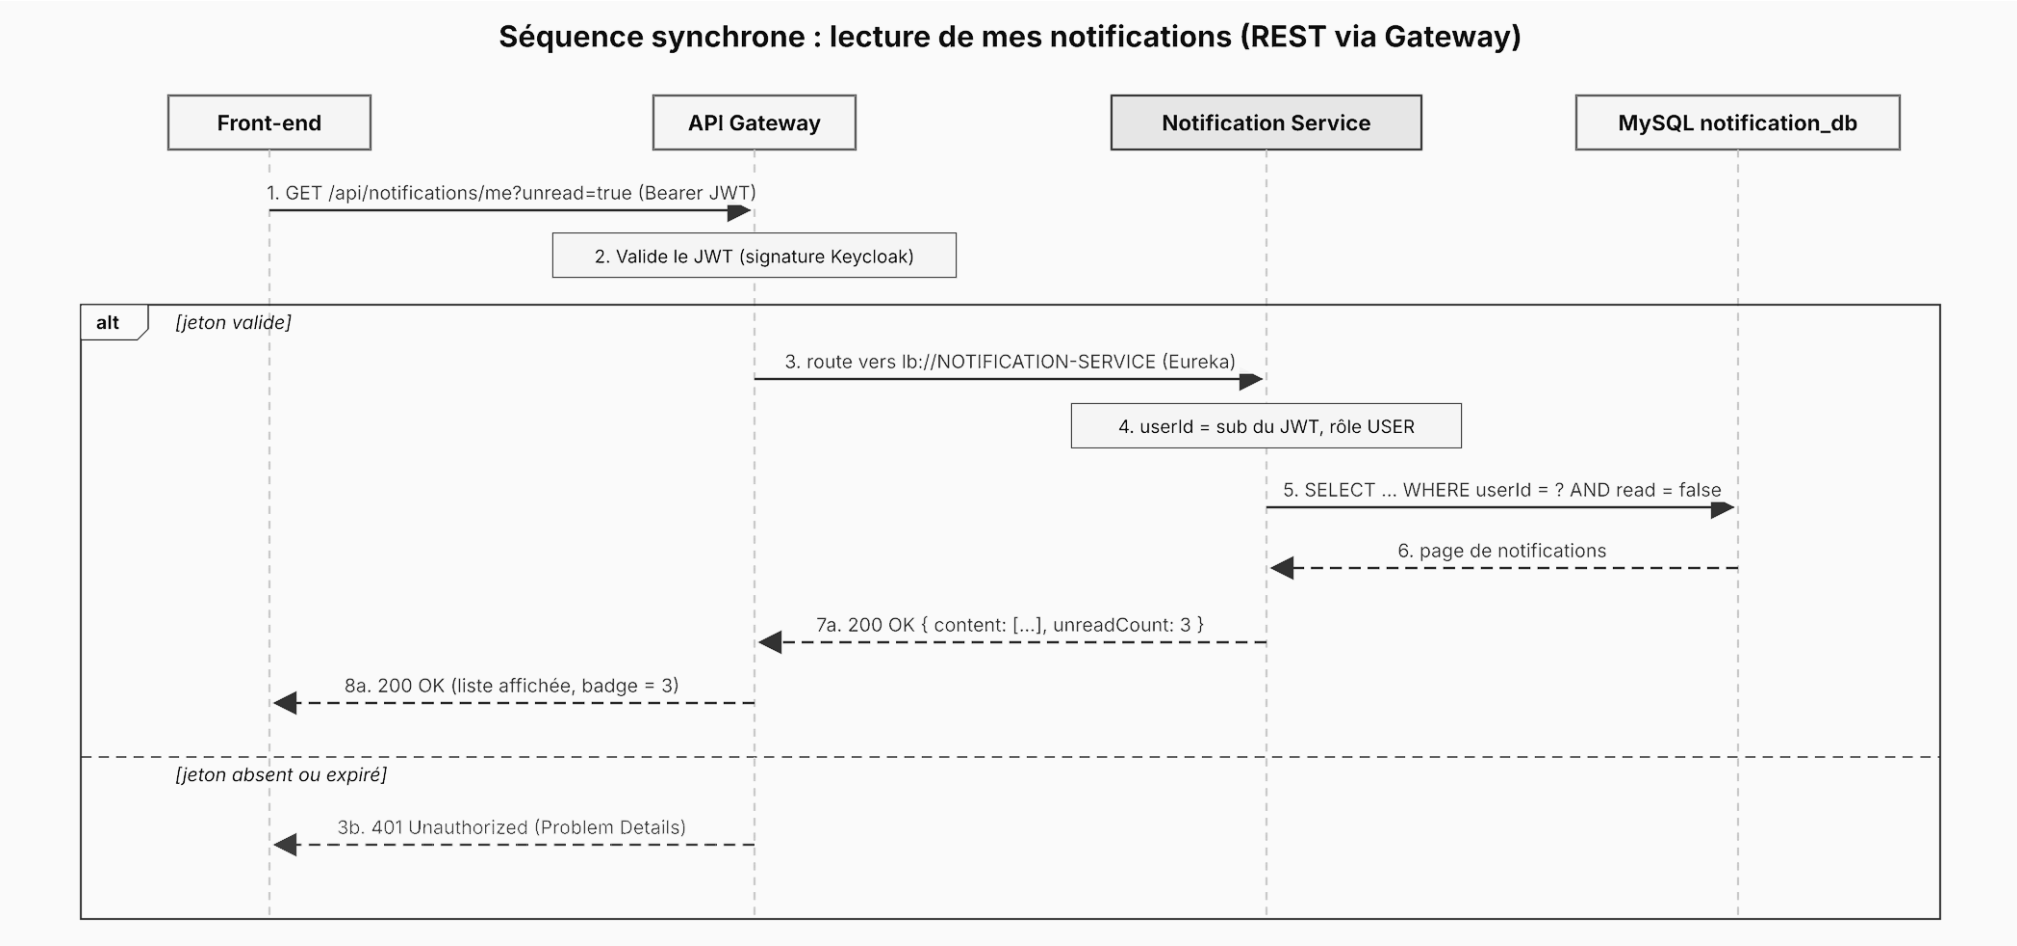

MS6 · notification-service – Diagramme de classes

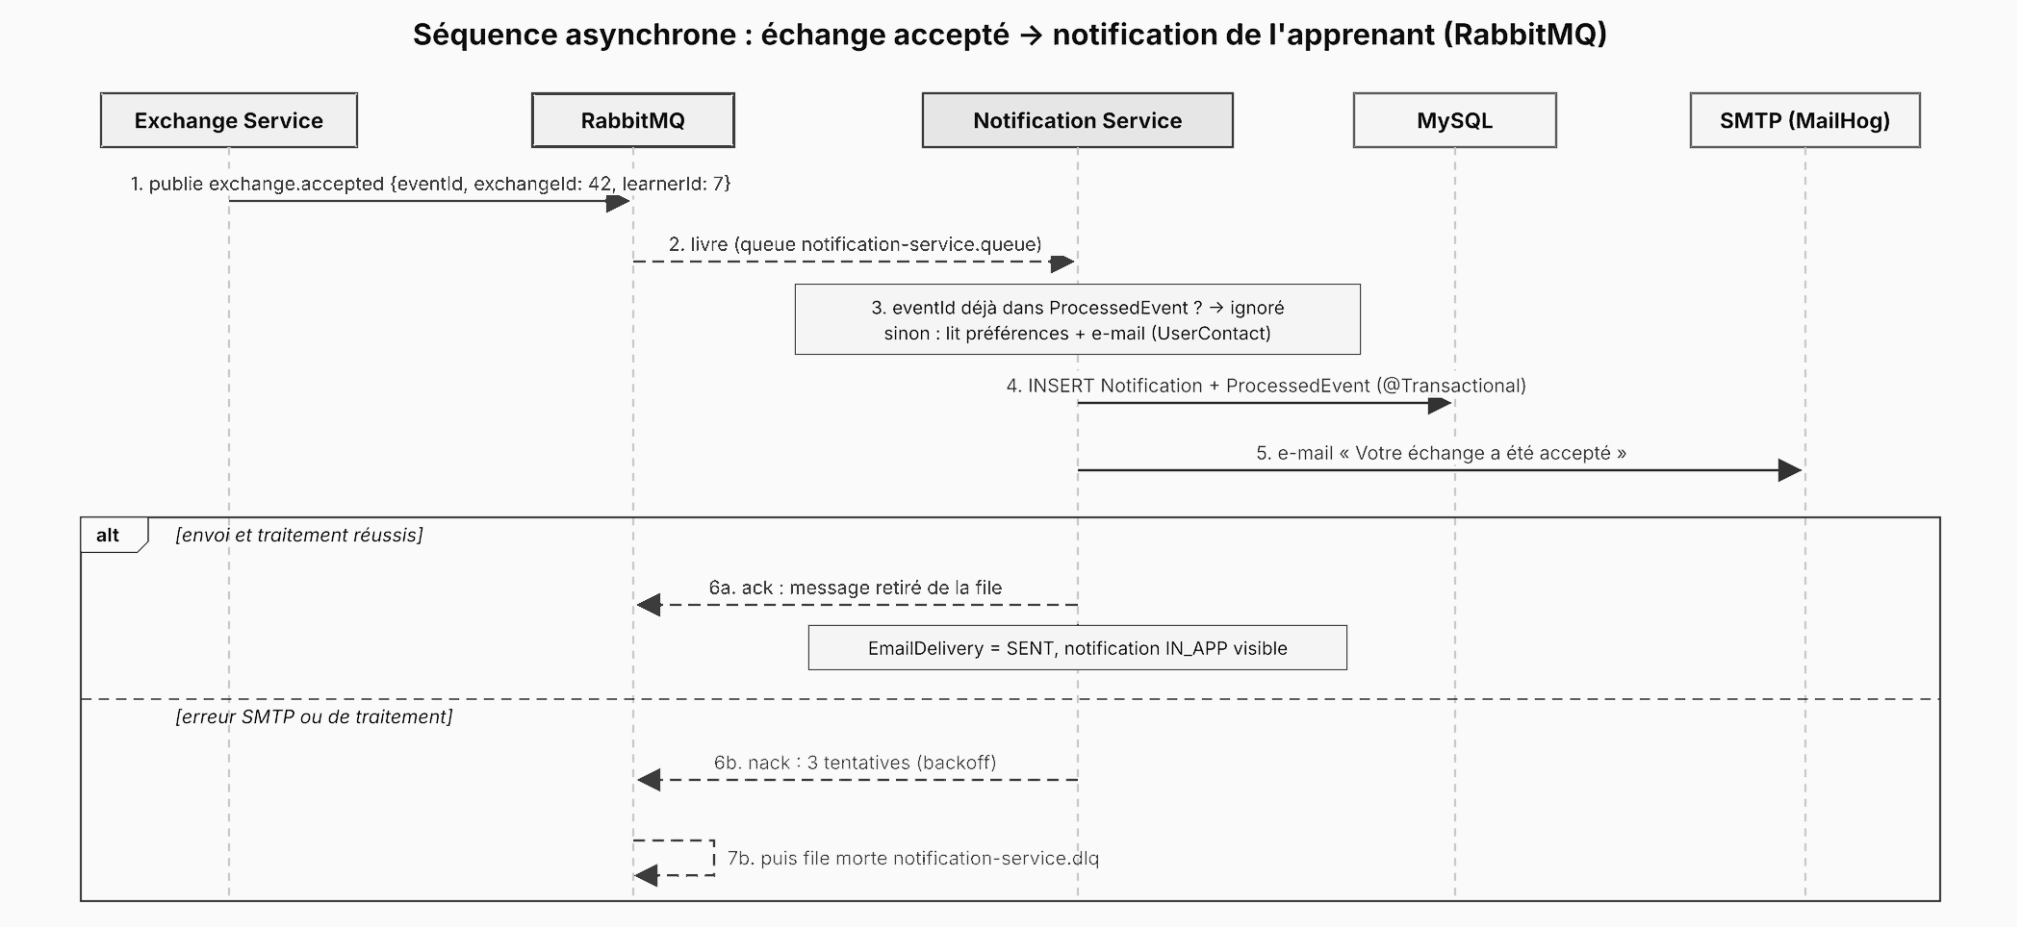

MS6 · notification-service – Interactions avec les autres microservices

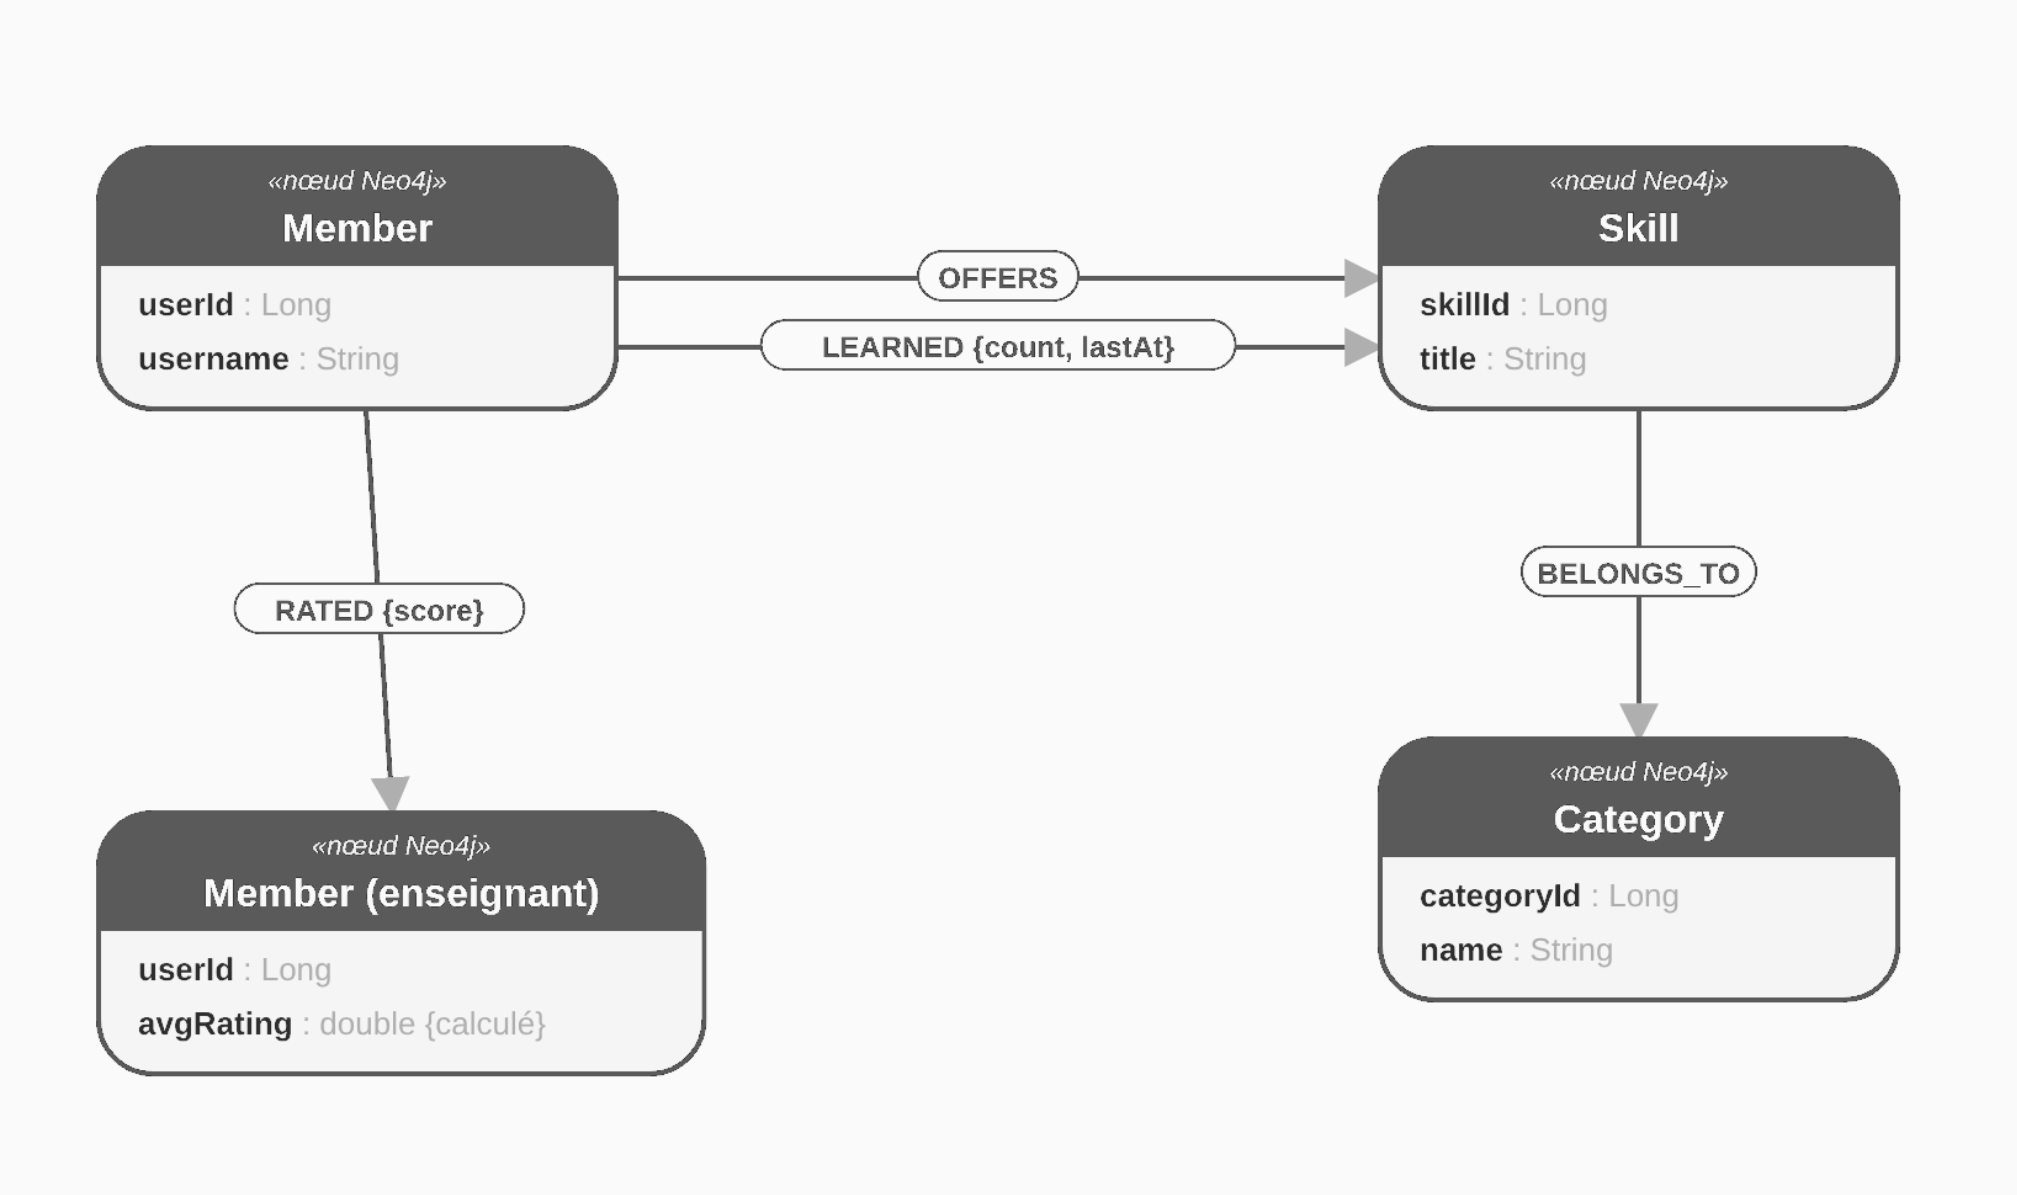

MS6 · notification-service – Exemple de communication synchrone

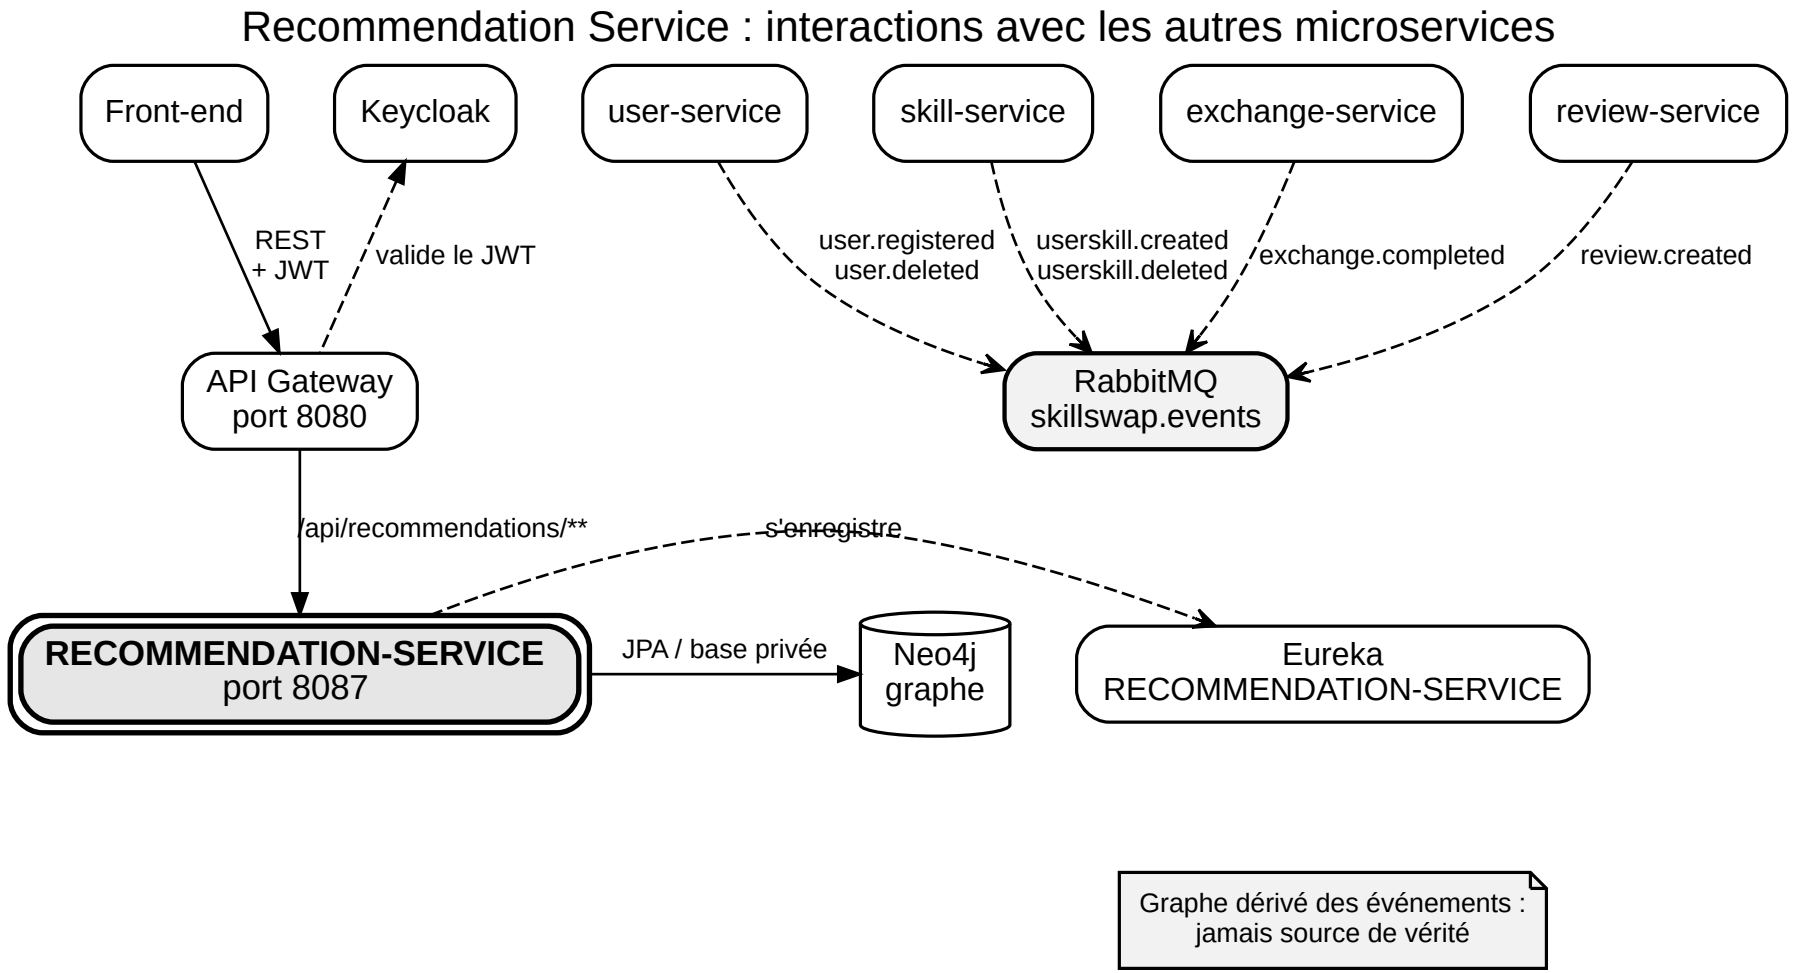

MS6 · notification-service – Exemple de communication asynchrone

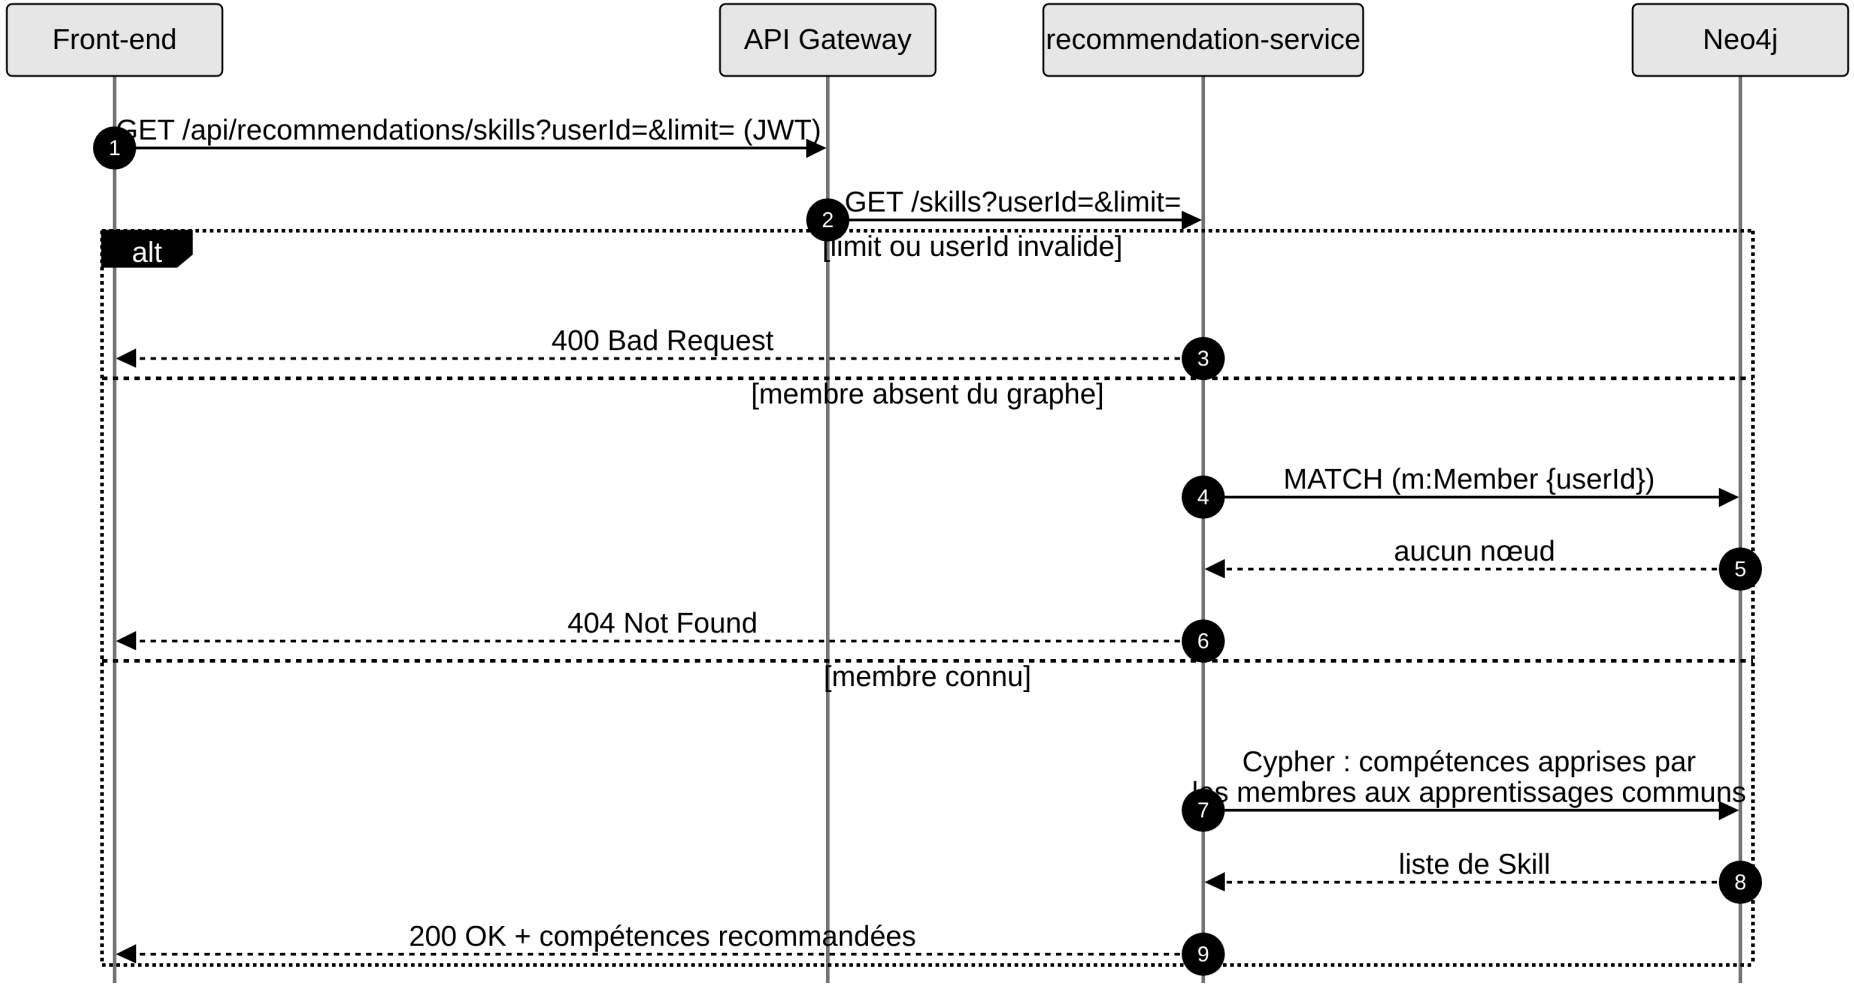

MS7 · recommendation-service – Modèle de graphe / diagramme de classes

MS7 · recommendation-service – Interactions avec les autres microservices

MS7 · recommendation-service – Exemple de communication synchrone

MS7 · recommendation-service – Exemple de communication asynchrone
